Independent Auditors' Report
English Translation of a Report Originally Issued in Chinese

The Board of Directors and Shareholders
Cathay Century Insurance Co., Ltd.

Opinion

We have audited the accompanying consolidated balance sheets of Cathay Century Insurance Co., Ltd. (the "Company") and its subsidiaries as of 30 June 2018, 31 December 2017 and 30 June 2017, the related consolidated statements of comprehensive income for the three-month and six-month periods ended 30 June 2018 and 2017, and the related consolidated statements of changes in equity and cash flows for the six-month periods ended 30 June 2018 and 2017, and notes to the consolidated financial statements, including the summary of significant accounting policies.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company and its subsidiaries as of 30 June 2018, 31 December 2017 and 30 June 2017, and its consolidated financial performance for the three-month and the six-month periods ended 30 June 2018 and 2017, and cash flows for the six-month periods ended 30 June 2018 and 2017, in conformity with the requirements of the Regulations Governing the Preparation of Financial Reports by Insurance Enterprise, and IAS 34 "Interim Financial Reporting" as endorsed and became effective by Financial Supervisory Commission.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Company and its subsidiaries in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China (the "Norm"), and we have fulfilled our other ethical responsibilities in accordance with the Norm. Based on our audits, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit for the six-month period ended 30 June 2018 consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Independent Auditors' Report (continued)
English Translation of a Report Originally Issued in Chinese

Measurement of insurance liabilities

The measurement of the Company and its subsidiaries' insurance liabilities are dependent on the calculations based on different assumptions. Partial of the assumptions followed the regulations issued by the authorities while partial of the assumptions followed the professional judgements of internal specialists, and thus resulting in high complexity. Therefore, we determined measurement of insurance liabilities as a key audit matter.

Our audit procedures included (but not limited to) evaluating and testing the effectiveness of internal controls around insurance liabilities, including management's decision and approval of the methods and assumptions used in setting aside various reserves and controls for changing the methods and assumptions and examining the data of calculating insurance liabilities. Meanwhile, we involved internal specialists in our audit procedures, including assessing the reasonableness of the actuarial judgements and actuarial assumption models made by management.

Please refer to Notes 4, 5.2 and 6.15 for information about the Company and its subsidiaries' insurance liabilities.

Valuation of financial instruments

The Company and its subsidiaries determine the fair value of financial instrument investments for which no active market exists by applying valuation techniques. The Company and its subsidiaries involve internal valuation model to determine the fair value for partial of the financial instruments. The underlying assumptions of the valuation model will significantly impact the fair value of the reported financial instruments. Therefore, we determined valuation of financial instruments as a key audit matter.

Our audit procedures included (but not limited to) assessing and testing the effectiveness of internal controls related to financial instrument valuation, including managements' decision and approval of the valuation model and related assumptions, the controls related to the valuation model and change of assumptions, and management's valuation review process. We used internal valuation specialists to assist in reviewing the valuation techniques, understanding and assessing the rationality of key valuation assumptions, performing independent valuation calculation, and determining whether the valuation differences are acceptable.

Please refer to Notes 4, 5.2 and 7 for information about the Company and its subsidiaries' financial instruments valuation.

Independent Auditors' Report (continued)
English Translation of a Report Originally Issued in Chinese

Emphasis of Matter – Applying for New Accounting Standards

We draw attention to Notes 3 of the consolidated financial statements, which describes the Company and its subsidiaries applied for the International Financial Reporting Standard 9 “Financial Instruments” and 15 “Revenue from Contracts with Customers” starting from 1 January 2018, and elected not to restate the consolidated financial statements for prior periods. Our opinion is not modified in respect of this matter.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the requirements of the Regulations Governing the Preparation of Financial Reports by Insurance Enterprise, IAS 34 “Interim Financial Reporting” as endorsed and became effective by Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the ability to continue as a going concern of the Company and its subsidiaries, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company and its subsidiaries or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee or supervisors, are responsible for overseeing the financial reporting process of the Company and its subsidiaries.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Independent Auditors' Report (continued)
English Translation of a Report Originally Issued in Chinese

As part of an audit in accordance with auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Company and its subsidiaries.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability to continue as a going concern of the Company and its subsidiaries. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company and its subsidiaries to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the accompanying notes, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company and its subsidiaries to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

Independent Auditors' Report (continued)
English Translation of a Report Originally Issued in Chinese

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit for the six-month period ended 30 June 2018 consolidated financial statements and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

We have audited and expressed an unqualified opinion with emphasis of matter paragraph on the parent company only financial statements of the Company as of and for the six-month periods ended 30 June 2018 and 2017.

The accompanying notes are an integral part of these consolidated financial statements.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements
For the six-month periods ended 30 June 2018 and 2017
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

1. History and organization

Cathay Century Insurance Co., Ltd. (the “Company”) was incorporated in Taiwan on 19 July 1993, under the provisions of the Company Act of the Republic of China (“R.O.C.”). On 22 April 2002, the Company became a subsidiary of Cathay Financial Holdings Co., Ltd. (“Cathay Financial Holdings”) by adopting the stock conversion method under the R.O.C Financial Holdings Company Act and other pertinent acts of the R.O.C. On 2 August 2002, the Company officially changed its name from “Tong-Tai Insurance Co., Ltd.” to “Cathay Century Insurance Co., Ltd.”. The Company mainly engages in the business of property and casualty insurance. The Company’s registered office and the main business location are at No. 296, Sec. 4, Jen Ai Road, Taipei, Taiwan, R.O.C. Cathay Financial Holdings is the Company’s parent company and ultimate parent company.

2. Date and procedures of authorization of financial statements for issue

The consolidated financial statements of the Company and Subsidiaries (the “Consolidated Company”) for the six-month periods ended 30 June 2018 and 2017 were authorized for issue by the Company’s board of directors on 15 August 2018.

3. Newly issued or revised standards and interpretations

- (1) Changes in accounting policies resulting from applying for the first time certain standards and amendments

The Consolidated Company applied for the first time International Financial Reporting Standards (“IFRS”), International Accounting Standards (“IAS”), and Interpretations issued, revised or amended which are recognized by Financial Supervisory Commission (“FSC”) and become effective for annual periods beginning on or after 1 January 2018. The nature and the impact of each new standard and amendment that has a material effect on the Consolidated Company is described below:

- A. IFRS 9 (including the adoption of overlay approach of IFRS 9 *Financial Instruments* under IFRS 4 *Insurance Contracts*) replaces IAS 39 *Financial Instruments: Recognition and Measurement*. In accordance with the transition provision in IFRS 9, the Consolidated Company elected not to restate prior periods at the date of initial application (1 January 2018). The adoption of IFRS 9 has the following impacts on the Consolidated Company:

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

(A) The Consolidated Company adopted IFRS 9 since 1 January 2018 and they adopted IAS 39 before 1 January 2018. Please refer to Note 4 for more details on accounting policies.

(B) In accordance with the transition provision in IFRS 9, the assessment of the business model and classification of financial assets into the appropriate categories are based on the facts and circumstances that existed as at 1 January 2018. The classifications of financial assets and their carrying amounts as at 1 January 2018 are as follows:

IAS 39		IFRS 9	
Measurement categories	Carrying amounts	Measurement categories	Carrying amounts
Fair value through profit or loss		Fair value through profit or loss	
Financial assets at fair value through profit or loss	\$90,521	Financial assets at fair value through profit or loss	\$9,629,286
Available-for-sale financial assets	11,050,902	Financial assets at fair value through other comprehensive income	1,488,803
At amortized cost		At amortized cost	
Cash and cash equivalents	7,548,335	Cash and cash equivalents	7,548,335
Receivables	2,150,260	Receivables	2,150,260
Debt instrument investments for which no active market exists	2,008,580	Financial assets measured at amortized cost	8,657,064
Held-to-maturity financial assets	6,606,306		
Loans	251,770	Loans	251,770
Guarantee deposits paid	662,107	Guarantee deposits paid	654,809
Subtotal	19,227,358	Subtotal	19,262,238
Total	\$30,368,781	Total	\$30,380,327

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

(D) The transition adjustments from IAS 39 Financial Instruments: Recognition and Measurement to IFRS 9 Financial Instruments for the balance of loss allowance under expected credit loss model as at 1 January 2018 are as follows:

Items and measurement categories	Balance of impairment provision under IAS 39	Reclassifications	Remeasurements	Balance of loss allowance under IFRS 9
Available-for-sale financial instruments (IAS 39)				
Classified to financial assets at fair value through other comprehensive income (IFRS 9)	\$-	\$-	\$150	\$150
Classified to financial assets measured at amortized cost (IFRS 9)	-	-	346	346
Debt instrument investments for which no active market exists (IAS 39)				
Classified to financial assets measured at amortized cost (IFRS 9)	-	-	1,314	1,314
Held-to-maturity financial asset (IAS 39)				
Classified to financial assets measured at amortized cost (IFRS 9)	-	-	1,979	1,979
Total	\$-	\$-	\$3,789	\$3,789

(E) Effects on the date of initial application

In accordance with classification and measurement of financial assets and impairment assessment in IFRS 9, the Consolidated Company's assets increased by \$12,190 thousand, retained earnings decreased by \$133,589 thousand and other equity increased by \$145,779 thousand on the date of initial application (1 January 2018). The related explanation is as follows:

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

a. Classification and measurement of financial assets

A part of debt instrument investments for which no active market exists are reclassified as financial assets at fair value through profit or loss, and a part of available-for-sale financial assets are reclassified as financial assets measured at amortized cost and financial assets at fair value through profit or loss due to estimation of business model, thus reflect on adjustments to unrealized gains. The assets increased by \$15,185 thousand, retained earnings decreased by \$130,444 thousand and other equity increased by \$145,629 thousand.

Financial assets at fair value through profit or loss

Financial assets which are classified as held-for-trading derivative instruments in financial assets at fair value through profit or loss and mixed instruments designated at fair value through profit or loss in accordance with IAS 39 are classified as financial assets at fair value through profit or loss under IFRS 9.

Available-for-sale financial assets

Classified as available-for-sale financial assets according to IAS 39, including beneficiary certificates, stocks and bonds. The related explanation of change in classification is as follows:

(a) Beneficiary certificates

As the cash flow characteristics for beneficiary certificates are not solely payments of principal and interest on the principal amount outstanding, beneficiary certificates are classified as financial assets measured at fair value through profit or loss in accordance with IFRS 9. As at the date of initial application, the Consolidated Company reclassifies available-for-sale financial assets to financial assets measured at fair value through profit or loss.

(b) Stocks

Based on the facts and circumstances that existed as on 1 January 2018, aside from part of the financial assets which are not held-for-trading investments designated to be measured at fair value through other comprehensive income, the others should be reclassified as financial assets at fair value through profit or loss. No difference from carrying amount existed when stocks are measured at fair value.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

(c) Bonds

As the cash flow characteristics for bonds are solely payments of principal and interest on the principal amount outstanding, based on the facts and circumstances that existed as on 1 January 2018, bonds should be reclassified from available-for-sale financial assets to financial assets measured at amortized cost in accordance with IFRS 9 if the financial assets are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows. The difference between fair value and amortized cost previously recognized will be adjusted to other equity and the carrying amount of the reclassified financial assets. The financial assets should also be assessed for impairment in accordance with IFRS 9.

According to the fact and circumstances that existed as on 1 January 2018, bond investments held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and for sale should be classified as financial assets at fair value through other comprehensive income under IFRS 9. No difference from carrying amount exists, and the above mentioned assets should be assessed for impairment in accordance with IFRS 9.

The Consolidated Company chose to express profit or loss of the designated financial assets in overlay approach under IFRS 4 Insurance Contracts since their application of IFRS 9. The reclassification of available-for-sale financial assets to financial assets at fair value through profit or loss and designated to apply overlay approach resulted in no difference in carrying amount.

Held-to-maturity financial assets and debt instrument investments for which no active market exists

Bond investments classified as held-to-maturity financial assets and loans and receivables (placed in debt instrument investments for which no active market exists) according to IAS 39 and whose cash flow characteristics are solely payments of principal and interest on the principal amount outstanding, based on the facts and circumstances that existed as at the date of initial application, should be reclassified from held-to-maturity financial assets and debt instrument investments for which no active market exists to financial assets measured at amortized cost in accordance with IFRS 9 if the financial assets are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows. No difference from carrying amount exists, and the above-mentioned assets should be assessed for impairment in accordance with IFRS 9.

English Translation of Financial Statements Originally Issued in Chinese

Cathay Century Insurance Co., Ltd. and Subsidiaries

Notes to consolidated financial statements-continued

(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

Bond investments classified as loans and receivables (placed in debt instrument investments for which no active market exists) according to IAS 39 and whose cash flow characteristics are not solely payments of principal and interest on the principal amount outstanding should be classified as financial assets at fair value through profit or loss.

The Consolidated Company chose to express profit or loss of the designated financial assets in overlay approach under IFRS 4 Insurance Contracts since their application of IFRS 9. Therefore, the reclassification above resulted in an increase in other equity after reclassification.

b. Impairment assessment of financial assets

The Consolidated Company recognized adjustments of expected credit losses of debt instruments, which decreased assets by \$2,995 thousand, decreased retained earnings by \$3,145 thousand and increased other equity by \$150 thousand.

As for financial assets that are not measured at fair value through profit or loss, the impairment of debt instruments is evaluated by applying expected credit risk model in accordance with IFRS 9. If the credit risk of the financial assets does not increase significantly after the initial recognition, the allowance for losses will be measured at 12-month expected credit losses. If the credit risk of the financial assets increases significantly after the initial recognition and is not low credit risk, the allowance for losses will be measured at credit losses during remaining term to maturity. For receivables and contractual assets arose from the transactions in the scope of IFRS 15, credit losses are evaluated by simplified method. The above mentioned rule of impairment assessment is different from incurred losses model applied currently.

In accordance with impairment assessment of financial assets in IFRS 9, the Consolidated Company's deferred tax assets increased by \$644 thousand, retained earnings increased by \$2,051 thousand, and other equity decreased by \$1,407 thousand.

(F) Financial assets and liabilities have been reclassified to financial assets measured at amortized cost. The fair value and fair value gains and losses that have not yet been reclassified and shall be recognized during the transition period are as follows:

From available-for-sale financial assets (Classification under IAS 39) reclassified to financial assets measured at amortized cost	30 June 2018
Ending balance of the fair value in current period	\$1,383,109
Other comprehensive income in current period if not reclassified	10,003

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

(G) Please refer to Note 4, Note 5, Note 6 and Note 7 for the related disclosures required by IFRS 7 *Financial Instruments: Disclosures* and IFRS 9 *Financial Instruments*.

B. Prepayment Features with Negative Compensation – Amendments to IFRS 9

The amendment allows financial assets with prepayment features that permit or require a party to a contract either to pay or receive reasonable compensation for the early termination of the contract, to be measured at amortized cost or at fair value through other comprehensive income. The amendment has been issued by International Accounting Standards Board (“IASB”) but not yet endorsed by FSC (the effective date issued by IASB is beginning on or after 1 January 2019). In accordance with the question and answer set issued on 12 December 2017 by the FSC, the Consolidated Company elected to early apply the amendment on 1 January 2018 after considering that it was necessary. The Consolidated Company evaluated that the adoption of this standard did not have material impact.

- (2) Standards or interpretations issued, revised or amended by IASB which are endorsed by FSC, but not yet adopted by the Consolidated Company as at the end of the reporting period are listed below:

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
A	IFRS 16 <i>Leases</i>	January 1, 2019
B	IFRIC 23 <i>Uncertainty Over Income Tax Treatments</i>	January 1, 2019
C	IAS 28 <i>Investment in Associates and Joint Ventures</i> — Amendments to IAS 28	January 1, 2019
D	<i>Improvements to International Financial Reporting Standards (2015-2017 cycle)</i>	January 1, 2019
E	<i>Plan Amendment, Curtailment or Settlement</i> (Amendments to IAS 19)	January 1, 2019

A. IFRS 16 “Leases”

The new standard requires lessees to account for all leases under a single on-balance sheet model (subject to certain exemptions), recognizing most leases on balance sheet as assets and liabilities. Lessor accounting still uses the dual classification approach: operating lease and finance lease.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

B. IFRIC 23 “*Uncertainty Over Income Tax Treatments*”

The Interpretation clarifies application of recognition and measurement requirements in IAS 12 “*Income Taxes*” when there is uncertainty over income tax treatments.

C. IAS 28 “*Investment in Associates and Joint Ventures*” — *Amendments to IAS 28*

The amendments clarify that an entity applies IFRS 9 to long-term interests in an associate or joint venture that form part of the net investment in the associate or joint venture before it applies IAS 28, and in applying IFRS 9, does not take account of any adjustments that arise from applying IAS 28.

D. *Improvements to International Financial Reporting Standards (2015-2017 cycle)* :

IFRS 3 “*Business Combinations*”

The amendments clarify that an entity that has joint control of a joint operation shall remeasure its previously held interest in a joint operation when it obtains control of the business.

IFRS 11 “*Joint Arrangements*”

The amendments clarify that an entity that participates in, but does not have joint control of a joint operation does not remeasure its previously held interest in a joint operation when it obtains joint control of the business.

IAS 12 “*Income Taxes*”

The amendments clarify that an entity shall recognize the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognized those past transactions or events.

IAS 23 “*Borrowing Costs*”

The amendments clarify that an entity should treat any borrowing made specifically to obtain an asset as part of general borrowings when the asset is ready for its intended use or sale.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

E. *Plan Amendment, Curtailment or Settlement (Amendments to IAS 19)*

The amendments clarify that when a change in a defined benefit plan is made (such as amendment, curtailment or settlement, etc.), the entity should use the updated assumptions to remeasure its net defined benefit liability or asset.

The above-mentioned standards and interpretations issued by IASB and endorsed by FSC so that they are applicable for annual periods beginning on or after 1 January 2019. Apart from item, the remaining standards and interpretations have no material impact on the Consolidated Company.

- (3) Standards or interpretations issued, revised or amended, by IASB but not yet endorsed by FSC at the date of issuance of the Consolidated Company’s financial statements are listed below:

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
A	IFRS 10 “ <i>Consolidated Financial Statements</i> ” and IAS 28 “ <i>Investments in Associates and Joint Ventures</i> ” — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures	To be determined by IASB
B	IFRS 17 “ <i>Insurance Contracts</i> ”	January 1, 2021

A. IFRS 10 “*Consolidated Financial Statements*” and IAS 28 “*Investments in Associates and Joint Ventures*” — *Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures*

The amendments address the inconsistency between the requirements in IFRS 10 *Consolidated Financial Statements* and IAS 28 *Investments in Associates and Joint Ventures*, in dealing with the loss of control of a subsidiary that is contributed to an associate or a joint venture. IAS 28 restricts gains and losses arising from contributions of non-monetary assets to an associate or a joint venture to the extent of the interest attributable to the other equity holders in the associate or joint ventures. IFRS 10 requires full profit or loss recognition on the loss of control of the subsidiary. IAS 28 was amended so that the gains or losses resulting from the sale or contribution of assets that constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized in full.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

IFRS 10 was also amended so that the gains or loss resulting from the sale or contribution of a subsidiary that does not constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized only to the extent of the unrelated investors' interests in the associate or joint venture.

B. IFRS 17 “Insurance Contracts”

IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects (including recognition, measurement, presentation and disclosure requirements). The core of IFRS 17 is the General (building block) Model, under this model, on initial recognition, an entity shall measure a group of insurance contracts at the total of the fulfilment cash flows and the contractual service margin. The fulfilment cash flows comprise of the following:

- (1) estimates of future cash flows;
- (2) Discount rate: an adjustment to reflect the time value of money and the financial risks related to the future cash flows, to the extent that the financial risks are not included in the estimates of the future cash flows; and
- (3) a risk adjustment for non-financial risk.

The carrying amount of a group of insurance contracts at the end of each reporting period shall be the sum of the liability for remaining coverage and the liability for incurred claims.

Other than the General Model, the standard also provides:

- (1) a specific adaptation for contracts with direct participation features (the Variable Fee Approach)
- (2) a simplified approach (Premium Allocation Approach) mainly for short-duration contracts.

The above-mentioned standards and interpretations issued by IASB have not yet endorsed by FSC at the date when the Consolidated Company's financial statements were authorized for issue, the local effective dates are to be determined by FSC. The Consolidated Company is currently determining the potential impact of the standards and interpretations.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

4. Summary of significant accounting policies

(1) Statement of compliance

The consolidated financial statements of the Consolidated Company for the six-month periods ended 30 June 2018 and 2017 have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Insurance Enterprise (“the Regulations”) and IAS 34 *Interim Financial Reporting* as endorsed and became effective by the FSC.

(2) Basis of preparation

The consolidated financial statements have been prepared on a historical cost basis, except for financial instruments that have been measured at fair value. The consolidated financial statements are expressed in thousands of New Taiwan Dollars (“NT\$”) unless otherwise stated.

(3) Basis of consolidation

Preparation principle of consolidated financial statement

Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Company controls an investee if and only if the Company has:

- A. Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- B. Exposure, or rights, to variable returns from its involvement with the investee, and
- C. The ability to use its power over the investee to affect its returns

When the Company has less than a majority of the voting or similar rights of an investee, the Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- A. The contractual arrangement with the other vote holders of the investee
- B. Rights arising from other contractual arrangements
- C. The Company’s voting rights and potential voting rights

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

The Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Subsidiaries are fully consolidated from the acquisition date, being the date on which the Company obtains control, and continue to be consolidated until the date that such control ceases. The financial statements of the Subsidiaries are prepared for the same reporting period as the parent company, using uniform accounting policies. All intra-group balances, income and expenses, unrealized gains and losses and dividends resulting from intra-group transactions are eliminated in full.

A change in the ownership interest of a subsidiary, without a change of control, is accounted for as an equity transaction.

Total comprehensive income of the Subsidiaries is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

If the Company loses control of a subsidiary, it:

- A. Derecognizes the assets (including goodwill) and liabilities of the subsidiary;
- B. Derecognizes the carrying amount of any non-controlling interest;
- C. Recognizes the fair value of the consideration received;
- D. Recognizes the fair value of any investment retained;
- E. Recognizes any surplus or deficit in profit or loss; and
- F. Reclassifies the Company's share of components previously recognized in other comprehensive income to profit or loss.

The consolidated entities are listed as follows:

Investor	Subsidiary	Business Nature	Ownership Interest		
			30 June 2018	31 December 2017	30 June 2017
The Company	Cathay Insurance (Vietnam) Ltd. ("Cathay Insurance (Vietnam)")	Property Insurance	100.00	100.00	100.00

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

The Consolidated Company's consolidated financial statements are presented in NT\$, which is also the Company's functional currency. Each entity in the Consolidated Company determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

Transactions in foreign currencies are initially recorded by the Consolidated Company entities at their respective functional currency rates prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rate of exchange ruling at the reporting date. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions.

All exchange differences arising on the settlement of monetary items or on translating monetary items are taken to profit or loss in the period in which they arise except for the following:

- A. Exchange differences arising from foreign currency borrowings for an acquisition of a qualifying asset to the extent that they are regarded as an adjustment to interest costs are included in the borrowing costs that are eligible for capitalization.
- B. Foreign currency items within the scope of IFRS 9 Financial Instruments under IFRS 4 Insurance Contracts are accounted for based on the accounting policy for financial instruments.
- C. Exchange differences arising on a monetary item that forms part of a reporting entity's net investment in a foreign operation is recognized initially in other comprehensive income and reclassified from equity to profit or loss on disposal of the net investment.

When a gain or loss on a non-monetary item is recognized in other comprehensive income, any exchange component of that gain or loss is recognized in other comprehensive income. When a gain or loss on a non-monetary item is recognized in profit or loss, any exchange component of that gain or loss is recognized in profit or loss.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

(5) Translation of financial statements in foreign currency

The assets and liabilities of foreign operations are translated into NT\$ at the closing rate of exchange prevailing at the reporting date and their income and expenses are translated at an average rate for the period. The exchange differences arising on the translation are recognized in other comprehensive income. On the disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation, recognized in other comprehensive income and accumulated in the separate component of equity, is reclassified from equity to profit or loss when the gain or loss on disposal is recognized. The following partial disposals are accounted for as disposals:

On the partial disposal of a subsidiary that includes a foreign operation that does not result in a loss of control, the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is re-attributed to the non-controlling interests in that foreign operation. In partial disposal of an associate or joint arrangement that includes a foreign operation that does not result in a loss of significant influence or joint control, only the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is reclassified to profit or loss.

Any goodwill and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and expressed in its functional currency.

(6) Cash and cash equivalents

Cash and cash equivalents comprises cash on hand, demand deposits and short-term (contract period within one year) time deposits or investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(7) Financial assets and financial liabilities

Financial assets and financial liabilities are recognized when the Consolidated Company becomes a party to the contractual provisions of the instrument.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

A. Initial recognition and subsequent measurement

The accounting policies from 1 January 2018 are as follows:

According to IFRS 9 *Financial Instruments*, the Consolidated Company categorized the financial assets on balance sheet as financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income, financial assets for hedging, financial assets measured at amortized cost and so on. Financial liabilities are categorized as financial liabilities at fair value through profit or loss, financial liabilities for hedging and bonds payable.

The Consolidated Company classify the instrument issued as a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability, and an equity instrument.

All regular way purchase or sales of financial assets are recorded using trade date accounting. Financial assets and financial liabilities within scope are recognized initially at fair value plus or minus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs. The Consolidated Company classifies the instrument issued as a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability, and an equity instrument.

The Consolidated Company categorize financial assets as financial assets measured at amortized cost, financial assets at fair value through other comprehensive income and financial assets at fair value through profit or loss based on both of the following:

- (A) the entity's business model for managing the financial assets
- (B) the financial assets' contractual cash flow characteristics

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

Subsequent measurement of each category of financial assets and liabilities is listed below:

(A) Financial assets and financial liabilities at fair value through profit or loss

Financial assets at fair value through profit or loss are:

- a. financial assets not measured at amortized cost or at fair value through other comprehensive income
- b. financial assets measured at amortized cost or at fair value through other comprehensive income be designated as financial assets at fair value through profit or loss in order to eliminate or significantly reduce accounting mismatch

Financial liabilities at fair value through profit or loss are categorized as held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial assets and financial liabilities at fair value through profit or loss are subsequently measured at fair value with changes in fair value recognized in profit or loss therein, which take into account any dividend and interest income, are recognized in profit or loss.

In addition, to reduce the fluctuation in profit or loss due to applying IFRS 9 earlier than IFRS 17, the Consolidated Company elected to IFRS 4 Insurance Contracts which will replace in IFRS 17 to present profit or loss on financial assets designated.

Overlay approach is applied to financial assets if all of the following conditions are met therein, the Company and Subsidiaries elected to remove profit or loss arising from changes in fair value in subsequent measurement and placed it in other comprehensive income.

- a. The financial assets are held in respect of activities related to IFRS 4.
- b. The financial assets are measured at fair value through profit or loss applying IFRS 9, but would not have been measured at fair value through profit or loss in its entirety applying under IAS 39.
- c. The financial assets designated to apply overlay approach at initial recognition when an entity first applies IFRS 9 or when a new financial asset is initially recognized or when a financial asset newly meets the criteria having previously not met.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

(B) Financial assets at fair value through other comprehensive income

Financial assets at fair value through other comprehensive income are:

- a. debt instrument investments that meet both of the following conditions:
 - (a) The financial assets are held within a business model whose objective is achieved by collecting contractual cash flows and for sale.
 - (b) The contractual terms of the financial assets give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- b. equity instruments investments that are not held for trading, for which an irrevocable election at initial recognition is made and whose subsequent changes in fair value are presented in other comprehensive income.

Financial assets in this category are measured at fair value in subsequent assessment. Gains or losses arising from changes in fair value shall be recognized in other equity before derecognition, except for expected credit losses and foreign exchange gains or losses arising from the translation of foreign monetary financial assets, which shall be recognized in profit or loss. When the financial assets are derecognized, except for equity instruments designated in IFRS 9 Note 5.7.5, the cumulative gains or losses previously recognized in other equity are reclassified in profit or loss if they are debt instrument investments or recognized directly in retained earnings if they are investments in equity instruments. Dividends are recognized in profit or loss, unless its represent part of recovery on cost of investment obviously.

(C) Financial assets measured at amortized cost

Financial assets measured at amortized cost are the ones that meet both of the following conditions and are presented as receivables, financial assets measured at amortized cost, other financial assets and loans on the balance sheet:

- a. The financial assets are held within a business model whose objective is achieved by collecting contractual cash flows.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

- b. The contractual terms of the financial assets give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Such financial assets are subsequently measured at amortized cost using the effective interest rate method and shall be recognized in profit or loss when amortized, impaired and derecognized.

Secured loans shall be measured at amortized cost using the effective interest method; however, they need not be discounted if the effect of discounting is immaterial.

(D) Financial assets and financial liabilities for hedging

Financial assets or financial liabilities that have been designated as effective hedging instruments in hedge accounting are measured at fair value.

(E) Financial liabilities

Financial liabilities are measured at amortized cost, except for financial liabilities at fair value through profit or loss and financial liabilities for hedging, which are measured at fair value.

The accounting policies before 1 January 2018 are as follows:

According to IAS 39 *Financial Instruments: Recognition and Measurement*, financial assets are categorized as financial assets at fair value through profit or loss, available-for-sale financial assets, debt instrument investments for which no active market exists, held-to-maturity financial assets and loans and receivables. Financial liabilities are categorized as financial liabilities at fair value through profit or loss and financial liabilities carried at amortized cost.

Initial recognition and subsequent measurement of each category of financial assets and liabilities is listed below:

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

(A) Financial assets and financial liabilities at fair value through profit or loss

A financial asset is classified in this category if acquired principally for the purpose of selling or repurchasing in the short term, for which there is a recent pattern of short-term profit taking, or as derivative financial instruments. This category comprises financial assets classified as held-for-trading and designated as at fair value through profit or loss on initial recognition.

Financial asset is classified as held for trading if:

- a. It is acquired or incurred principally for the purpose of selling or repurchasing it in the near term
- b. On initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking
- c. It is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument)

Financial assets at fair value through profit or loss are measured at fair value and changes therein, which take into account any dividend and interest income, are recognized in profit or loss.

Financial assets measured at fair value through profit or loss and designated as such at the time of initial recognition are classified as “financial assets measured at fair value through profit or loss” in the condensed consolidated balance sheet. Changes in fair value are recognized in profit of loss as “gain or loss on financial assets and liabilities measured at fair value through profit or loss”.

(B) Available-for-sale financial assets

Available-for-sale financial assets are those non-derivative financial assets that are designated as available for sale or are not classified as financial assets at fair value through profit or loss, debt instrument investments for which no active market exists, held-to-maturity financial assets or loans and receivables.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

Available-for-sale financial assets are recognized initially at fair value plus any directly attributable transaction cost. Subsequent to initial recognition, they are measured at fair value and changes therein, other than foreign currency differences on available-for-sale debt instruments, interest income calculated using the effective interest method, and dividend income, are recognized in other comprehensive income. When impairment loss of available-for-sale financial assets is recognized or derecognized, the gain or loss accumulated in the fair value reverse in equity is reclassified to profit or loss. Dividend income is recognized in profit or loss on the date that an entity's right to receive payment is established.

(C) Debt instrument investments for which no active market exists

Debt instrument investments for which no active market exists are debt investments with fixed or determinable payments that are not quoted in an active market. At initial recognition, debt instrument investments for which no active market exists quote are recognized at fair value plus any directly attributable transaction costs. Disposal gain or loss is recognized in profit or loss upon derecognition. Subsequent to initial recognition, these debt instrument investments for which no active market exists are measured at amortized cost using the effective interest rate method.

(D) Held-to-maturity financial assets

Non-derivative financial assets with fixed or determinable payments and fixed maturity are classified as held-to-maturity financial assets if the Consolidated Company have both the positive intention and ability to hold the financial assets to maturity. Such investments are subsequently measured at amortized cost. Gains or losses are recognized in profit or loss when the investments are derecognized or impaired. The amortized cost is computed as the cost amount initially recognized minus principal repayments, plus or minus the cumulative amortization using the effective interest rate arising from the difference between the cost and the maturity amount, and minus impairment. Contracts related to the financial assets, transactions costs, fees and premiums/discounts are taken into consideration when calculating the effective interest rate.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

(E) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market other than:

- a. those that the Consolidated Company intend to sell immediately or in the near term, which shall be classified as held for trading, and those that the entity upon initial recognition designates as at fair value through profit or loss
- b. those that the Consolidated Company upon initial recognition designate as available for sale
- c. those for which the holder may not recover substantially all of its initial investment, other than because of credit deterioration

Loans and receivables are separately presented on the balance sheet as loans and receivables. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fee or transaction costs. The effective interest method amortization is recognized in profit or loss.

Secured loans shall be measured at amortized cost using the effective interest method; however, they need not be discounted if the effect of discounting is immaterial.

(F) Financial liabilities

Financial liabilities held-for-trading or are designated on initial recognition are classified as financial liabilities at fair value through profit or loss.

Financial liabilities measured at fair value through profit or loss and those designated as such at the time of initial recognition are recognized as “financial liabilities measured at fair value through profit or loss” in the condensed consolidated balance sheet. The changes in fair value are recognized as “gain or loss on financial assets and liabilities measured at fair value through profit or loss” in the condensed consolidated statement of comprehensive income.

Financial liabilities are measured at amortized cost, except for financial liabilities at fair value through profit or loss.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

B. Derecognition of financial assets and liabilities

(A) Financial assets

The Consolidated Company derecognize financial assets when the contractual rights to the cash flows from the assets expire or when it transfers substantially all the risks and rewards of ownership of the asset.

Securities lending transactions and repurchase agreements do not result in derecognition because the Consolidated Company have nearly retained all such risks and rewards.

(B) Financial liabilities

The Consolidated Company remove all or part of a financial liability when the obligation specified in the contract is satisfied, cancelled or expires.

An exchange between an existing borrower and lender of debt instruments with substantially different terms or a substantial modification of the terms of an existing financial liability is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the liability extinguished and the liability recognized is recognized in profit or loss.

C. Reclassification of financial assets

The accounting policies from 1 January 2018 are as follows:

Financial instruments of the Consolidated Company are reclassified in accordance with IFRS 9:

- (A) When, and only when, an entity changes its business model for managing financial assets it shall reclassify all affected financial assets.
- (B) An entity shall not reclassify any liability.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

The accounting policies before 1 January 2018 are as follows:

In accordance with IAS 39 Financial Instruments: Recognition and Measurement:

- (A) The Consolidated Company shall not reclassify a derivative out of the fair value through profit or loss category while it is held or issued.
- (B) The Consolidated Company shall not reclassify any financial instrument out of the fair value through profit or loss category if upon initial recognition it was designated by the Consolidated Company as at fair value through profit or loss.
- (C) The Consolidated Company shall not reclassify any financial instrument into the fair value through profit or loss category after initial recognition.
- (D) If, as a result of a change in intention or ability, it is no longer appropriate to classify an investment as held to maturity, it shall be reclassified as available for sale and remeasured at fair value, and the difference between its carrying amount and fair value shall be recognized in other comprehensive income.
- (E) If, during the current financial year or during the two preceding financial years, there have been sales or reclassification of more than an insignificant amount of held-to-maturity investments, any remaining held-to-maturity investments shall be reclassified as available for sale.

D. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

E. Impairment of financial assets

The accounting policies from 1 January 2018 are as follows:

As for financial assets that are not measured at fair value through profit or loss, the impairment of debt instruments is evaluated by applying expected credit risk model in accordance with IFRS 9. If the credit risk of the financial assets does not increase significantly after the initial recognition, the allowance for losses will be measured at 12-month expected credit losses. If the credit risk of the financial assets increases significantly after the initial recognition and is not low credit risk, the allowance for losses will be measured at credit losses during remaining term to maturity.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

The Consolidated Company assess the expected credit losses of the financial assets on each balance sheet date. Accounting policies for impairment of financial assets measured at different methods are as follows:

(A) Debt instruments at fair value through other comprehensive income

The expected credit losses is recognized by reclassifying cumulative gains or losses recognized in other equity to profit or loss without deducting loss allowance from the carrying amount. If the expected credit losses decrease, the amount decreased shall be reversed and recognized as gains in the period it reversed.

(B) Debt instruments measured at amortized cost

The carrying amount of the financial asset is reduced by loss allowance and the amount of the loss is recognized in profit or loss for the period. If the expected credit losses decrease, loss allowance shall be reversed and the reversed amount shall be recognized as gains in the period it reversed.

In addition, in accordance with the regulation of “Guidelines for Handling Assessment of Assets, Loans Overdue, Receivable on Demand and Bad Debts by Insurance Enterprises”, the Company is required to record the minimum amounts based upon each of the following category for allowance of uncollectible accounts:

- (a) 0.5% of the ending balance for the first category of loan assets excluding life insurance loans, automatic premium loans and holding government debts, 2% of the ending balance for the second category of loan assets, 10% of the ending balance for the third category of loan assets, as well as 50% and 100% of the ending balance for the fourth and fifth category of loan assets.
- (b) 1% of the ending balance for all the five categories of loan assets excluding life insurance loans, automatic premium loans and holding government debts.
- (c) Total unsecured portion of loans overdue and receivable on demand.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

The minimum amounts should be recorded within three years starting on January 2014. Pursuant to Order No. Financial-Supervisory-Insurance-Corporate-10402506096, the Company shall increase its allowance for bad debt loans ratio to at least 1.5% when providing mortgage loans, such as house purchasing loans and building loans. The Company will meet the requirement by the end of 2016. Policy loans that started from 1 January 2011 could be excluded from the balance of the mortgage loans. Policy loans are different mortgage loans that insurance enterprises provide by using governmental project fund or self-owned fund to coordinate with government policy.

The accounting policies before 1 January 2018 are as follows:

The Consolidated Company assesses at each reporting date whether there is any objective evidence that a financial asset other than the financial assets at fair value through profit or loss is impaired. A financial asset is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more loss events that has occurred after the initial recognition of the asset and that loss event has an impact on the estimated future cash flows of the financial asset. The carrying amount of the financial asset is reduced through the use of an allowance account and the amount of the loss is recognized in profit or loss.

Other loss events include:

- (a) Significant financial difficulty of the issuer or obligor; or
- (b) A breach of contract, such as a default or delinquency in interest or principal payments; or
- (c) It becoming probable that the borrower will enter bankruptcy or other financial reorganization; or
- (d) The disappearance of an active market for that financial asset because of financial difficulties.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

For debt instrument investments for which no active market exists, held-to-maturity financial assets and loans and receivables, the Consolidated Company first assesses whether objective evidence of impairment exists individually for financial asset that are individually significant, or collectively for financial assets that are not individually significant. If the Consolidated Company determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the assets carrying amount and the present value of estimated future cash flows. The present value of the estimated future cash flows is discounted at the financial assets original effective interest rate. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate. Interest income is accrued based on the reduced carrying amount of the asset, using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

Loans and receivables together with the associated allowance are written off when there is no realistic prospect of future recovery. If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited to profit or loss.

In addition, in accordance with the regulation of “Guidelines for Handling Assessment of Assets, Loans Overdue, Receivable on Demand and Bad Debts by Insurance Enterprises”, the Company is required to record the minimum amounts based upon each of the following category for allowance of uncollectible accounts:

- (a) 0.5% of the ending balance for the first category of loan assets excluding life insurance loans, automatic premium loans and holding government debts, 2% of the ending balance for the second category of loan assets, 10% of the ending balance for the third category of loan assets, as well as 50% and 100% of the ending balance for the fourth and fifth category of loan assets.
- (b) 1% of the ending balance for all the five categories of loan assets excluding life insurance loans, automatic premium loans and holding government debts.
- (c) Total unsecured portion of loans overdue and receivable on demand.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

The minimum amounts should be recorded within three years starting on January 2014. Pursuant to Order No. Financial-Supervisory-Insurance-Corporate-10402506096, the Company shall increase its allowance for bad debt loans ratio to at least 1.5% when providing mortgage loans, such as house purchasing loans and building loans. The Company will meet the requirement by the end of 2016. Policy loans that started from 1 January 2011 could be excluded from the balance of the mortgage loans. Policy loans are different mortgage loans that insurance enterprises provide by using governmental project fund or self-owned fund to coordinate with government policy.

In the case of equity investments classified as available-for-sale, the cumulative loss — measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that investment previously recognized in profit or loss — is removed from other comprehensive income and recognized in profit or loss. Impairment losses on equity investments are not reversed through profit or loss; increases in their fair value after impairment are recognized directly in other comprehensive income.

In the case of debt instruments classified as available-for-sale, the amount recorded for impairment is the cumulative loss measured as the difference between the amortized cost and the current fair value, less any impairment loss on that investment previously recognized in profit or loss. Future interest income continues to be accrued based on the reduced carrying amount of the asset, using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. The interest income is recognized in profit or loss. If, in a subsequent year, the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in profit or loss, the impairment loss is reversed through profit or loss.

F. Derivatives and hedge accounting

The Consolidated Company elected to apply hedge accounting policy of IFRS 9 prospectively at the initial application of IFRS 9.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

The accounting policy before 1 January 2018 as follow:

The Consolidated Company engages in derivative financial instrument transactions, such as currency forward contracts, interest rate swaps, cross currency swaps, options and futures, to hedge its risk associated with foreign currency and interest rate fluctuations. These derivative financial instruments are initially recognized at fair value on the day a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash hedges, which are recognized in equity.

Hedging relationships consist of three types:

- (A) Fair value hedges: a hedge of the exposure to changes in fair value of a recognized asset or liability, an unrecognized firm commitment.
- (B) Cash flow hedges: a hedge of exposure to variability in cash flows that is either attributable to a particular risk associated with a recognized asset or liability (such as all or some future interest payments on variable rate debt) or with a highly probable forecast transaction and could affect profit or loss.
- (C) Hedge of a net investment in a foreign operation: a hedge of the exposure to foreign currency risk associated with a net investment in a foreign operation.

At the inception of a hedge relationship, the Consolidated Company formally designates and documents hedge relationship to which the Consolidated Company wishes to apply hedge accounting, the risk management objective and strategy for undertaking the hedge. The documentation includes identification of the hedging instrument, the hedged item or transaction, the nature of the risk being hedged and how the Consolidated Company assesses the hedging instrument's effectiveness in offsetting the exposure to changes in the hedged item's fair value attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows attributable to the hedged risk, and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated for the hedge.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

Hedges in compliance with hedge accounting requirements as mention above are accounted for as follows:

(A) Fair value hedges

Fair value hedges is a hedge of the exposure to changes in fair value of a recognized asset or liability, an unrecognized firm commitment, or an identified portion of such asset, liability or firm commitment, that is attributable to a particular risk which could affect profit or loss. The carrying amount of the hedged item is adjusted and gains or losses attributable to the hedged risk. The gain or loss from remeasuring the hedging instrument at fair value (for a derivative hedging instrument) or the foreign currency component of its carrying amount measured in accordance with the IAS 21 The Effects of Changes in Foreign Exchange Rates (for a non-derivative hedging instrument) is recognized in profit or loss.

For a hedged financial instrument measured at amortized cost, the adjustment arising from above paragraph to its carrying amount is amortized to profit or loss based on an effective interest rate over the remaining term to maturity. Amortization may begin as soon as an adjustment exists and shall begin no later than when the hedged item ceases to be subject to hedge accounting.

(B) Cash flow hedges

Cash flow hedges is a hedge of the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognized asset or liability or with a highly probable forecast transaction and could affect profit or loss. The portion of the gain or loss on the hedging instrument that is determined to be an effective hedge is recognized directly in other equity, while the ineffective portion is recognized in profit or loss.

If a hedge of a forecast transaction subsequently results in the recognition of a financial asset or a financial liability, the associated gains or losses that were recognized in other equity shall be reclassified from equity to profit or loss as a reclassification adjustment in the same period or periods during which the asset acquired or liability assumed affects profit or loss. If a hedge of the forecast transaction results in the recognition of a non-financial asset or a non-financial liability, the associated gains or losses initially recognized in other equity shall be removed and then be included in the initial cost or other carrying amount of the asset or liability.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

If the forecast transaction is no longer expected to occur, the related cumulative gain or loss on the hedging instrument that has been recognized in equity is transferred to profit or loss. If the hedging instrument expires or is sold, terminated or exercised without replacement or rollover, the cumulative gain or loss that was previously recognized in equity remain in other equity until the forecast transaction occurs. If the transaction is not expected to occur, the cumulative gain or loss is reclassified from other equity.

(C) Hedges of a net investment in a foreign operation

Hedges of a net investment in a foreign operation are accounted for in a way similar to cash flow hedges. Gains or losses on the hedging instruments relating to the effective portion of the hedge are recognized in other equity while any gains or losses relating to the ineffective portion are recognized in profit or loss. On disposal of the foreign operation, the cumulative gains or losses recognized in other equity is transferred to profit or loss.

(8) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- A. In the principal market for the asset or liability
- B. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Consolidated Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Consolidated Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

(9) Investments accounted for using the equity method

Investment in the associate of the Consolidated Company is accounted for using the equity method other than those that meet the criteria to be classified as held for sale. An associate is an entity over which the Consolidated Company has significant influence. A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture.

Under the equity method, the investment in the associate or an investment in a joint venture is carried in the balance sheet at cost and adjusted thereafter for the post-acquisition change in the Consolidated Company's share of net assets of the associate or joint venture. After the interest in the associate or joint venture is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Consolidated Company has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture. Unrealized gains and losses resulting from transactions between the Consolidated Company and the associate or joint venture are eliminated to the extent of the Consolidated Company's related interest in the associate or joint venture.

When changes in the net assets of an associate or a joint venture occur and are not those recognized in profit or loss or other comprehensive income and do not affect the Consolidated Company's percentage of ownership interests in the associate or joint venture, the Consolidated Company recognizes such changes in equity based on its percentage of ownership interests. The resulting capital surplus recognized will be reclassified to profit or loss at the time of disposing the associate or joint venture on a pro rata basis.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

When an associate or joint venture issues new stock and the Consolidated Company's interest in an associate or a joint venture is reduced or increased as the Consolidated Company fails to acquire shares newly issued in the associate or joint venture proportionately to its original ownership interest, the increase or decrease in the interest in the associate or joint venture is recognized in capital surplus and investments accounted for using the equity method. When the interest in the associate or joint venture is reduced, the cumulative amounts previously recognized in other comprehensive income are reclassified to profit or loss or other appropriate items. The above-mentioned capital surplus recognized is reclassified to profit or loss on a pro rata basis when the Consolidated Company disposes of the associate or joint venture.

The financial statements of the associates or joint venture are prepared for the same reporting period as the Consolidated Company. Where necessary, adjustments are made to bring the accounting policies in line with the Consolidated Company.

The Consolidated Company determines at each reporting date whether there is any objective evidence that the investment in the associate or an investment in a joint venture is impaired in accordance with IAS 28 *Investments in Associates and Joint Ventures* (before 1 January 2018: IAS 39 *Financial Instruments: Recognition and Measurement*). If this is the case, the Consolidated Company calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value and recognize the amount in the share of profit or loss of an associate in the statement of comprehensive income as required by IAS 36 *Impairment of Assets*. If using the investment's value in use as the recoverable amount, the Consolidated Company determine the value in use based on the following estimates:

- A. Future cash flows that the Consolidated Company expect to derive from the investment in the associate or joint venture, including cash flows from the operation of the associate or joint venture and from the ultimate disposal of such investment, or
- B. Present value of the future cash flows from dividends expected to be received from the associate or joint venture and from the disposal of the investment.

Because goodwill included as part of the carrying amount of an investment in an associate or an investment in a joint venture is not separately recognized, it is not tested for impairment separately by applying the requirements for impairment testing goodwill in IAS 36 *Impairment of Assets*.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

Upon loss of significant influence over the associate or joint venture, the Consolidated Company measures and recognizes any retaining investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence and the fair value of the retaining investment and proceeds from disposal is recognized in profit or loss. Furthermore, if an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate, the entity continues to apply the equity method and does not remeasure the retained interest.

(10) Property and equipment

Property and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of dismantling and removing the item and restoring the site on which it is located and borrowing costs for construction in progress if the recognition criteria are met. Each part of an item of property and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. When significant parts of property and equipment are required to be replaced in intervals, the Consolidated Company recognized such parts as individual assets with specific useful lives and depreciation, respectively. The carrying amount of those parts that are replaced is derecognized in accordance with the derecognition provisions of IAS 16 *Property, plant and equipment*. When a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

Office equipment	5years
Leased assets	3years
Leasehold improvements	The shorter of lease terms or economic useful lives

An item of property and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is recognized in profit or loss.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively as a change in accounting estimate, if appropriate.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

(11) Leases

The Consolidated Company as a lessee

Finance leases which transfer to the Consolidated Company substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at the commencement of the lease at the fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized in profit or loss.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Consolidated Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating lease payments are recognized as an expense on a straight-line basis over the lease term.

(12) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is its fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in profit or loss for the year in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each financial year. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are recognized in profit or loss when the asset is derecognized.

Computer software

The cost of computer software is amortized on a straight-line basis over the estimated useful life (3 to 5 years).

(13) Impairment of non-financial assets

The Consolidated Company assesses at the end of each reporting period whether there is any indication that an asset in the scope of IAS 36 *Impairment of Assets* may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Consolidated Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's ("CGU") fair value less costs to sell and its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Consolidated Company estimates the asset's or cash-generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been an increase in the estimated service potential of an asset which in turn increases the recoverable amount. However, the reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years.

An impairment loss of continuing operations or a reversal of such impairment loss is recognized in profit or loss.

(14) Separation requirement for specific assets

According to Article 4 of “*Regulations for the Reports of Accounting and Financial Information for Compulsory Automobile Liability Insurance*” that authority to set from Section 3, Article 47 of “*Compulsory Automobile Liability Insurance Act*”, the Consolidated Company provides compulsory automobile liability insurance ("this insurance") and transact accounting account of this insurance.

According to Article 5 of “*Regulations for the Management of the Various Reserves for Compulsory Automobile Liability Insurance*”, for the special reserve set aside by the Consolidated Company for this insurance, the Consolidated Company shall purchase treasury bills or deposit the reserve with a financial institution as a time deposit. Provided that with the approval of the competent authority, the Consolidated Company may purchase the following domestic securities:

- A. Government bonds, not including exchangeable government bonds.
- B. Financial bonds, negotiable certificates of deposit, banker's acceptances, and commercial paper guaranteed by a financial institution, provided that financial bonds shall be limited to ordinary financial bonds only.

The amount of treasury bills purchased or time deposits placed in a financial institution under the preceding paragraph shall not be less than 30 percent of the total amount of the Consolidated Company's retained earned pure premiums for this Insurance in the most recent period. The competent authority may raise that percentage to a level it deems appropriate based on the Consolidated Company's operational status.

If the balance of the Consolidated Company's special reserve is less than 30 percent of the total amount of the Consolidated Company's retained earned pure premiums for this Insurance in the most recent period, then the full amount of its special reserve shall be used to purchase treasury bills or be deposited in a financial institution as a time deposit.

According to Article 6 of “*Regulations for the Management of the Various Reserves for Compulsory Automobile Liability Insurance*”, except for the special reserve set aside as prescribed in the preceding paragraphs, funds held by the Consolidated Company for this Insurance (reserves, payables, temporary credits and amounts to be carried forward) shall be deposited in a financial institution in the form of demand deposits and time deposits, provided that with the approval of the competent authority, the Consolidated Company may purchase any of the following domestic securities:

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

- A. Treasury bills.
- B. Negotiable certificates of deposit, bankers' acceptances, and commercial paper guaranteed by a financial institution.
- C. Government bonds in a repo transaction.

The amount of demand deposits deposited in financial institutions under the preceding paragraph shall not be less than 45 percent of the balance remaining after subtracting the amount of special reserves from the amount of funds held by the Consolidated Company due to the operation of this Insurance, or less than 30 percent of the retained earned pure premium for the most recent period as audited or reviewed by a certified public accountant. The competent authority may raise the percentage of demand deposits required by the Consolidated Company to a level it deems appropriate based on the Consolidated Company's operational status.

If the total amount of unearned premium reserve and loss reserve of the Consolidated Company with respect to this Insurance is less than 30 percent of the retained earned pure premiums of this Insurance for the most recent period as audited or reviewed by a certified public accountant, the funds held by the Consolidated Company through its conduct of this Insurance shall be deposited in full with a financial institution in the form of demand deposits.

According to article 11 of *Regulations for the Management of the Various Reserves for Compulsory Automobile Liability Insurance*, when the Consolidated Company suspends business operations or terminates its operation of this Insurance, the various reserves for this Insurance shall be transferred into the various reserves set aside for handling of this Insurance by the other insurer that assumes the business. If no other insurer is to assume the business, and there is no outstanding liability under this Insurance, and the balance of the special reserve is positive, the assets corresponding to the special reserve shall be transferred to the Motor Vehicle Accident Compensation Fund.

When the Consolidated Company has been duly ordered to suspend business and undergo rehabilitation, ordered to dissolve, or its permission to operate this Insurance business has been revoked, and no other insurer is to assume this Insurance business, and there is no outstanding liability under this Insurance and the balance of the special reserve is positive, the assets corresponding to the special reserve shall be transferred to the Motor Vehicle Accident Compensation Fund.

(15) Insurance contract categories

Insurance contract refers to the insurer accepting the insurance policyholder's transfer of significant insurance risk, and agrees to the uncertain future of a particular event (insured event) and the contract will compensate the policyholder for any damages occurred. The Consolidated Company's definition of a significant insurance risk refers to any insured event that occurs and causes the Consolidated Company to pay additional significant fees.

Insurance contract with features of financial instruments are contracts that transfer the financial risk. The definition of a financial risk refers to one or more specific interest rate, prices of financial instruments, product prices, exchange rates, price index, rate index, credit ratings and indicators, and other variables that faces risk of possible future changes. If the above variables are not considered as a financial variable, then the variables exist in both sides under the contract.

When the original judgment meet the criteria of the policy under the insurance contract, before the right of ownership and obligations expired or extinguished, the policy will still be considered as an insurance contract; even if the exposure to insurance risk during the policy period has been significantly reduced. However, if insurance risk following the renewal of an insurance contract with features of financial instruments is transferred to the Consolidated Company, the Consolidated Company will reclassify the contract as an insurance contract.

(16) Reinsurance contracts assets

The Consolidated Company limits exposure to some events that may cause a certain amount of loss and this is done in accordance to sale's needs and the insurance laws and regulations for reinsurance. For reinsurance ceded, the Consolidated Company can't refuse to fulfill its obligations to the insured because the reinsurers failed to fulfill their responsibility.

The Consolidated Company holds the right over re-insurer for reinsurance reserve assets, claims recoverable from reinsurers – net and due from reinsurers and ceding companies, and regularly assess if impairment has occurred to such rights or the rights can no longer be recovered. For the classification of reinsurance contracts, the Consolidated Company assesses whether the transfer of significant insurance risk to the re-insurer has occurred. If the transfer of significant insurance risk is not apparent, then the contract is recognized and evaluated with deposit accounting.

(17) Insurance liabilities

Insurance liabilities are set aside in accordance with “*Regulations for the Management of the Various Reserves by Insurance Enterprises*”, “*Regulations for the Management of the Various Reserves for Compulsory Automobile Liability Insurance*”, “*Enforcement Rules for the Risk Spreading Mechanism of Residential Earthquake Insurance*”, “*Regulations for the Management of the Various Reserves for Nuclear energy insurance*”, “*Regulations for the Management of the Various Reserves for Commercial Earthquake and Typhoons Flood Insurance by Property and Casualty Insurance Enterprises*” and “*Precautions of strengthening disaster insurance of property insurance industry (commercial earthquake and typhoons flood insurance)*”. Also, the booked reserves shall be validated by the certified actuarial professionals approved by FSC.

A. Unearned premium reserve

The reserve for unearned premiums represents the portion of premiums written related to the unexpired terms of coverage, which shall be set aside based on each unexpired underlying risk.

B. Claims reserve

It is mainly for the unpaid claim reserve and incurred but not reported (IBNR) claim reserves, which is calculated and deposited based upon the past indemnity experiences and expenses occurred to meet the actuarial principle. The notified but unpaid claim reserve is assessed case by case as well as its relevant information obtained and deposited by each type of insurance.

C. Special reserve

The special reserve is classified into 2 categories, “Special reserve for major incident” and “Special reserve for fluctuation of risks”. For the special reserves set aside by the Company before 1 January 2011, they should be shown as a liability item on the balance sheet. Since 1 January 2011, the after-tax addressed amount of the special reserve should be placed in the special reserve under equity. The recovery of special reserve can be charged against the special reserve under liabilities if sufficient. If the recovery amount exceeds the balance of the special reserve under liabilities, the after-tax excess amount can be recovered from the special reserve under equity.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

According to the “*Precautions of strengthening disaster insurance of property insurance industry (commercial earthquake and typhoons flood insurance)*”, the industry that order for these insurance should provision the special reserve from liability to equity when the company priority complement commercial earthquake insurance and typhoons flood insurance into liability (after tax), excluding compulsory automobile liability insurance, nuclear energy insurance, political housing earthquake insurance, commercial earthquake insurance and typhoons flood insurance. The decrease or withdrawing of special reserve for major incident and special reserve for fluctuation of risks of commercial earthquake insurance and typhoons flood insurance should follow the precautions.

(A) Special reserve for major incident

All types of insurance should follow the special reserve for major incident rates set by the authorities.

Upon occurrence of the catastrophic events, actual retained claims in excess of \$30,000 thousand individually and the aggregate payment of loss of the whole property and casualty insurers in excess of \$2,000 million, the fund of the claims can be withdrawn from the special reserve.

If the reserve has been set aside for over 15 years, the Company could has its plan of recovering process of the reserve accessed by certified actuaries and submit the plan to the authority for reference.

(B) Special reserve for fluctuation of risks

When the actual claim paid for each insurance product categories minus the offsetting amount from special reserve of major incidents is less than the anticipated loss, 15 percent of this difference should be reserved in special reserve for fluctuation of risks.

When the actual claim paid for each insurance product categories minus the offsetting amount from special reserve of major incidents is greater than the anticipated loss, the exceed amount can be used for writing down the special reserve for fluctuation of risks. If the total amount of the special reserve is not enough to be written down, special reserve for fluctuation of risks of other insurance product categories can be used. Additionally, the type of insurance and total dollar amount written-down should be reported to the authority for inspection purpose.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

When accumulative dollar amount of the special reserve for fluctuation of risks exceed 60% of its retained earned premium, the excess amount should be recall and recognize as income for the current year.

D. Premiums deficiency reserve

If the probable claims and expenses of the unexpired insurance contracts are greater than the aggregate amount of unearned premium reserves and collectable premiums in the future, the premium deficiency reserve should be set aside based on the difference thereof.

E. Liability reserve

The minimum liability reserve for health insurance that the insurance period is greater than one year is set aside using full preliminary term reserving method. However, the method of setting aside minimum liability reserve for health insurance with special nature should be approved by the competent authority.

(18) Insurance premium revenues and the acquisition costs

Direct premiums are recognized on the date when the policies became effective. Policy related expenses are recognized when incurred. Reinsurance premiums and reinsurance commission expenses are recognized upon the assumption of reinsurance. Claim expenses for assumed reinsurance policies are recognized upon notification that claim payments are due.

The reserve for unearned premiums represents the portion of premiums written related to the unexpired terms of coverage, which shall be set aside based on each unexpired underlying risk.

The amount of unearned premium reserve for compulsory automobile liability insurance is set aside pursuant to “*Regulations for the Management of the Various Reserves for Compulsory Automobile Liability Insurance*”.

The amount of unearned premium reserve for the residential earthquake insurance is set aside pursuant to “*Enforcement Rules for the Risk Spreading Mechanism of Residential Earthquake Insurance*”.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

The amount of unearned premium reserve for the nuclear insurance is set aside pursuant to “Regulations for the Management of the Various Reserves for the Nuclear Insurance”.

Calculation of unearned premium reserve is determined by actuaries based on characteristics of insurances and cannot be changed without the authority’s approval unless otherwise regulated by law. The amount of unearned premium reserve should be audited by a certified actuary.

Taxes related to the insurance premium revenues are recognized pursuant to “*Value-added and Non-value-added Business Tax Act*” and “*Stamp Tax Act*” on an accrual basis.

(19) Insurance claim costs

The insurance claims payment of direct written policies is recognized as the amount of actual payment of incurred and reported case. For those incurred but unpaid claim cases and outstanding claim cases, the gross change of claims reserve is assessed case by case as well as its relevant information obtained and deposited by each type of business line.

The reinsurance claims payments are recognized upon notification. Adjustments are made at balance sheet date, and recognized under the account of gross change of reinsurance claims reserve.

The IBNR of direct written business and ceded in business is calculated and deposited based upon the past indemnity experiences and expenses occurred to meet the actuarial principle.

The claims recovered from reinsurance account for those paid claims would recover from reinsurers according to reinsurance contracts. For those reported but unpaid claims and IBNR claims, are recognized as the gross change of claims reserve.

Claim reserve is not discounted to its present value.

The amount of claim reserve for compulsory automobile liability insurance is set aside pursuant to Regulations for the “*Regulations for the Management of the Various Reserves for Compulsory Automobile Liability Insurance*”.

The amount of claim reserve for the residential earthquake insurance is set aside pursuant to “*Enforcement Rules for the Risk Spreading Mechanism of Residential Earthquake Insurance*”.

The amount of claim reserve for the nuclear insurance is set aside pursuant to “*Regulations for the Management of the Various Reserves for the Nuclear Insurance*”.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

(20) Liability adequacy test

In alignment with Article 24-1 of “*Regulations for the Various Reserves of Insurance Industry*”, from 1 January 2011 on, an insurer shall assess at the end of each reporting period whether its recognized insurance liabilities are adequate, using current estimates of future cash flows of those insurance contracts that meet the requirements of liability adequacy test under IFRS 4. If that assessment shows that the carrying amount of its insurance liabilities is inadequate, a reserve shall be set aside to cover the entire deficiency based on actuarial principles.

(21) Salvage and subrogation

Salvage legally acquired from the claim procedure for direct written business shall be valued and recognized at its fair value. Subrogation legally acquired shall be recognized when the actual recovery is definite (the inflow of the economic benefits in the future is more likely than not), and its amount can be reliably measured.

(22) Reinsurance ceded

In order to limit the amount of losses resulting from certain incidents, the Consolidated Company conducts reinsurances based on business needs and pursuant to regulations of insurance laws. The Consolidated Company cannot use reinsurer’s not fulfilling its obligations as a reasonable cause to not fulfill obligations to reinsurers of insurance contracts ceded.

Reinsurance expenses are recognized under reinsurance contracts and its financial reporting including cutoff of reporting periods shall match to insurance premium revenues. Unbilled reinsurance expenses shall be estimated using a reasonable and systematic method at financial closing. Relevant revenues such as reinsurance commission revenues, etc., are recognized in the same period, and relevant reinsurance gains and losses shall not be deferred.

Reinsurance assets include ceded unearned premiums reserve, ceded claims reserve, ceded premiums deficiency reserve, and ceded liability adequacy reserve, and represent rights to reinsurers pursuant to “*Regulations for the Various Reserves of Insurance Industry*” and reinsurance contracts.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

The Consolidated Company regularly assesses whether reinsurance assets, claims recoverable from ceding companies, due from reinsurers and ceding companies prescribed in the previous paragraphs are impaired or unable to collect. When there is objective evidence, as a result of an event that occurred after initial recognition of the reinsurance asset, that the cedant may not receive all amounts due to it under the terms of the contract, and that event has a reliably measurable impact on the amounts that the cedant will receive from the reinsurer, the Consolidated Company recognizes the amount of accumulated impairment losses based on the difference between the recoverable amount and the carrying value of reinsurance assets, and sets aside a fair amount of bad debt allowances on unrecoverable amount of claims recoverable from ceding companies, due from reinsurers and ceding companies.

(23) Co-insurance organization, co-insurance and guarantee fund agreement

The Company and all the members approved by the competent authority set the “*Co-insurance Contract of Compulsory Automobile Liability Insurance*” agreed that the business should be fully included in the co-insurance, violators have to pay liquidated damages and agreed to be inspected by co-insurance team. The business is calculated on the basis of pure premiums and in accordance with the agreed portion. In addition to the liquidation or went out of business, the members shall not withdraw. If the members stop to operate the compulsory automobile liability insurance, it should drop out from the co-insurance organization at the same time and the responsibility of unearned premiums applies natural expiry.

The Company, the property insurance company with order for traveling industry performance guarantee insurance and the reinsurance company set the “*Co-insurance Contract of Traveling Industry Performance Guarantee Insurance*” agreed that the business should be fully included in the co-insurance, violators have to pay liquidated damages and agreed to be inspected by co-insurance organization. The business is calculated on the basis of co-insurance premium and in accordance with the agreed proportion. Members shall notice in writing when going to withdraw from co-insurance before following year began three months ago. The original undertaken responsibility will cease to exist at the end of the year and the member company which drops out from the co-insurance organization will be held responsible for the unfinished part of the responsibility until its natural expiry.

(24) Contribution to the stabilization funds

Since 1 July 2014, according to the “*Interpretations No.10302503181 Financial-Supervisory-Property-Insurance-Corporate*” issued by FSC, the Company has changed its way of contribution to rate discrimination depositing in “*Property Insurance Stabilization Fund Committees*”. It is reported as “*Contribution to the Stabilization funds*” in the income statement.

Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

(25) Post-employment benefits

All regular employees of the Consolidated Company are entitled to a pension plan that is managed by an independently administered pension fund committee. Fund assets are deposited under the committee's name in the specific bank account and hence, not associated with the Consolidated Company. Therefore fund assets are not included in the Consolidated Company's consolidated financial statements. Pension benefits for employees of the overseas Subsidiaries and the branches are provided in accordance with the respective local regulations.

For the defined contribution plan, the Consolidated Company will make a monthly contribution of no less than 6% of the monthly wages of the employees subject to the plan. The Consolidated Company recognizes expenses for the defined contribution plan in the period in which the contribution becomes due. Overseas Subsidiaries and branches make contribution to the plan based on the requirements of local regulations.

Post-employment benefit plan that is classified as a defined benefit plan uses the Projected Unit Credit Method to measure its obligations and costs based on actuarial assumptions. Re-measurements, comprising of the effect of the actuarial gains and losses, the effect of the asset ceiling (excluding net interest) and the return on plan assets, excluding net interest, are recognized as other comprehensive income with a corresponding debit or credit to retained earnings in the period in which they occur. Past service costs are recognized in profit or loss on the earlier of:

- A. the date of the plan amendment or curtailment, and
- B. the date that the Consolidated Company recognizes restructuring-related costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset, both as determined at the start of the annual reporting period, taking account of any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payment.

Pension cost for an interim period is calculated on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior financial year, adjusted and disclosed for significant market fluctuations since that time and for significant curtailments, settlements, or other significant one-off events.

Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

(26) Income taxes

Income tax expense (benefit) is the aggregate amount in respect of current tax and deferred tax. Current and deferred tax shall be recognized as income or an expense and including in profit or loss for the period, except for the extent that the tax relating to item recognized in other comprehensive income or directly in equity shall be recognized in other comprehensive income or directly in equity.

Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Current income tax relating to items recognized in other comprehensive income or directly in equity is recognized in other comprehensive income or equity and not in profit or loss.

The undistributed retained earnings is recognized as income tax expense in the subsequent year when the distribution proposal is approved at the shareholders' meeting.

Deferred tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- A. Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- B. In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- A. Where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- B. In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date. Deferred tax assets are reassessed at each reporting date and are recognized accordingly.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

The recognition and measurement of deferred tax follows annual financial reporting requirements in accordance with IAS 12 *Income Taxes*. The Consolidated Company recognize the effect of change in tax rate for deferred taxes in full if the new tax rate is enacted by the end of the interim reporting period, by charging to profit or loss, other comprehensive income, or directly to equity.

In accordance with Article 49 of “*the Financial Holdings Company Act*”, the Company and its parent company jointly filed corporation income tax returns and 10% surcharge on it undistributed retained earnings since 2002 under the integrated income tax system. If there is any tax effect due to the adoption of the foregoing integrated income tax system, the parent company can proportionately allocate the effects on tax expense (benefit). Such effects on current tax and deferred tax are accounted for as receivables or payables.

Effective from 1 January 2006, the Consolidated Company has adopted “*Income Basic Tax Act*” and “*Enforcement Rules of the Income Basic Tax Act*” to estimate income basic tax.

5. Significant accounting judgements, estimates and assumptions

The preparation of the Consolidated Company's consolidated financial statements require management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumption and estimate could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

(1) Judgement

In the process of applying the Consolidated Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the consolidated financial statements:

A. Categories of financial assets

The management has to use their judgment to categorize financial assets. Different categories apply different measurements, which could have a significant effect on the Consolidated Company's financial position and performance.

B. The significant degree of risk transform measured by the risk ratio of insurance policy

The risk ratio of insurance policy = (amount to insurance company's payment when insurance accident occur / amount to insurance company's payment when insurance accident do not occur - 1) × 100%

The insurance policies which meet one of the following conditions are defined as insurance contracts:

- (A) The insurance period is greater than or equal to 5 years, and at least 5 more policy year meet insurance risk ratio is greater than 10% (or 5%);
- (B) The insurance period is less than 5 years and more than half of the policy year meet insurance risk ratio is greater than 10% (or 5%).

According to the calculation formula of insurance risk ratio, insurance policies often obviously satisfy the conditions of significant risk transform. Therefore insurers do not have to calculate the risk ratio and can define property insurance policy as insurance contracts.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

C. The significant degree of risk transform measured by the risk ratio of reinsurance policy

The risk ratio of reinsurance policy = $(\Sigma \text{PV amount to assumed reinsurer occur net loss} \times \text{the ratio of occurrence} / \text{PV of premium that assumed reinsurer expected}) \times 100\%$

When risk ratio of reinsurance policy is greater than 1%, the policies can be defined as reinsurance contracts.

(2) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

A. Fair value of financial instruments

Where the fair value of financial instruments cannot be derived from an active market or a quoted price, it is determined using a valuation technique. Observable market data for similar financial instruments is utilized as inputs to measure fair value. If observable inputs are not available, prudent assumptions are used for estimating fair value. In applying valuation techniques, the Consolidated Company adopts pricing models in accordance with its procedure for valuation. All models are adjusted to ensure that their results reflect actual data and market prices.

B. Impairment loss estimation on debt instruments investments

Starting from 1 January 2018

Estimation of the impairment loss on debt instrument investments is measured at the amount of expected credit losses. The present value of the difference between the contractual cash flows that are due to an entity in accordance with the contract (carrying amount) and the cash flows that the entity expects to receive (after considering the forward-looking information) is recognized as credit losses. The Consolidated Company takes the historic experience, current market conditions and forward-looking information into consideration, and thus, make assumptions on the default rate and expected loss ratio and select the impairment assessment inputs. If actual future cash flows are less than expected, material impairment loss may occur.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

Before 1 January 2018

When there are objective evidences identified showing impairment indicators, the Consolidated Company takes the estimation of future cash flows into consideration. The amount of the impairment loss is the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses which have not been incurred) discounted at the financial asset's original effective interest rate. If actual future cash flows are less than expected, material impairment loss may occur.

C. Impairment of non-financial assets

An impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The fair value less costs to sell calculation is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date less incremental costs that would be directly attributable to the disposal of the asset or cash generating unit. The value in use calculation is based on a discounted cash flow model. The cash flow is projected based on reasonable assumptions of the cash-generating unit and do not include restructuring activities that the Consolidated Company is not yet committed to or significant future investments that will enhance the asset's performance of the cash generating unit being tested. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash inflows and the growth rate used for extrapolation purposes.

D. Post-employment benefits

The cost of post-employment benefit and the present value of the pension obligation under defined benefit pension plans are determined using actuarial valuations. An actuarial valuation involves making various assumptions. These include the determination of the discount rate and future salary increases.

E. Insurance contract liabilities

Insurance contract liabilities are based on assumptions of current period or the assumptions established in contract to reflect the best estimate at that time. All contracts were through liability adequacy tests do holistic assessment and assumptions to reflect the current period best estimate of cash flows in the future. The main assumptions are expected ultimate loss ratio, the maintaining cost ratio, persistency rates, discount ratio and reimbursement ratio.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

F. Income taxes

Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income. Given the wide range of international business relationships and the long-term nature and complexity of existing contractual agreements, differences between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Consolidated Company establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective countries in which it operates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective Consolidated Company's domicile.

Deferred tax assets are recognized for all carry forward of unused tax losses and unused tax credits and deductible temporary differences to the extent that it is probable that taxable profit will be available or there are sufficient taxable temporary differences against which the unused tax losses, unused tax credits or deductible temporary differences can be utilized. The amount of deferred tax assets determined to be recognized is based upon the likely timing and the level of future taxable profits and taxable temporary differences together with future tax planning strategies.

(14) Preferred stock liabilities

In accordance with the resolution of the Board of Directors' meeting on 7 October 2011, the Company issued 31,250 thousand shares of Class A preferred stocks at par value of \$10 per share through private offerings. The offering was approved by Insurance Bureau of Financial Supervisory Commission, Executive Yuan ("Insurance Bureau") on 26 October 2011. Primary terms and conditions of the privately offered Class A preferred stocks are listed as follows:

- A. Issuance period covers from 11 November 2011, the issue date, to 10 November 2018, seven years in total.
- B. Dividend yield is 1.86% per year based on the actual issue price of \$32 per share. Unpaid dividends will accumulate and shall be paid in full with priority in the year with earnings.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

C. The preference shares are not convertible to common stocks. When the shares are mature, the Company shall repurchase the shares at the issue price in compliance with R.O.C. Company Law. If the company is not able to repurchase all or a portion of the issued preferred stocks due to force majeure, the terms of the preferred stocks remain the same until the Company repurchases all outstanding shares. Dividends will be calculated at the original rate based on the actual extended period. Preferred shareholders' rights shall not be violated.

D. Preferred shareholders do not have rights to require the Company to redeem the shares. Five years after issuance, the Company can redeem the shares with the approval from the governing authorities.

According to the IAS 32 "*Financial Instruments: Presentation*", the above-mentioned preferred stocks issued shall be reported as "preferred stock liabilities" under financial liabilities.

On 14 March 2018, Board of Directors resolved in compliance with R.O.C. Company Law 158 and the Company's Article of Incorporation, redeeming the shares of Class A in advance in July 2018. Please refer to Note 12 for related information.

(16) Post-employment benefits

Defined contribution plan

The Consolidated Company adopt a defined contribution plan in accordance with the Labor Pension Act of the R.O.C. Under the Labor Pension Act, the Consolidated Company will make monthly contributions of no less than 6% of the employees' monthly wages to the employees' individual pension accounts. The Consolidated Company have made monthly contributions of 6% of each individual employee's salaries or wages to employees' pension accounts.

Pension benefits for employees of overseas Subsidiaries and branches are provided in accordance with the local regulations.

Expenses under the defined contribution plan for the three-month periods ended 30 June 2018 and 2017 were \$19,964 thousand and \$19,089 thousand, respectively, and for the six-month periods ended 30 June 2018 and 2017 were \$39,911 thousand and \$38,038 thousand, respectively.

English Translation of Financial Statements Originally Issued in Chinese

(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

Defined benefit plans

Expenses under the defined benefit plans for the three-month periods ended 30 June 2018 and 2017 were \$10,297 thousand and \$8,281 thousand, respectively, and for the six-month periods ended 30 June 2018 and 2017 were \$20,593 thousand and \$16,563 thousand, respectively.

(17) Common stock

Issuance of common stock for cash at \$40 per share by 16,750 thousand common shares were resolved by the Board of Directors, acting on behalf of the shareholders on 16 August 2017. The issuance of share capital was approved by the FSC's Insurance bureau on 31 August 2017 and the record date for issuance of share capital was 15 September 2017. As of 30 June 2018, 31 December 2017 and 30 June 2017, the total authorized and issued shares were 305,705 thousands, 305,705 thousands and 288,955 thousands at par value of \$10, respectively. Each share carries equal rights to vote and to receive dividends.

(18) Capital surplus

	30 June 2018	31 December 2017	30 June 2017
Additional paid-in capital	\$502,500	\$502,500	\$-

According to the Company Act, the capital surplus shall not be used except for covering the deficit of the company. When a company incurs no loss, it may distribute the capital surplus related to the income derived from the issuance of new shares at a premium or income from endowments received by the company. The distribution could be made in cash or in the form of dividend shares to its shareholders in proportion to the number of shares being held by each of them.

(19) Retained earnings

A. Legal capital reserve

Pursuant to the Insurance Act, 20% of the Company's annual after-tax net income shall be appropriated as legal reserve until the total amount of the legal capital reserve equals the issued share capital. The Company is able to issue new stock or cash dividend from legal reserve if there is no deficit as long as the legal reserve is over 25% of the paid in capital.

On 25 April 2018 and 26 April 2017, the Company's board of directors, acting on behalf of the shareholders, resolved to recognize the legal capital reserves of \$371,627 thousand and \$494,095 thousand.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

B. Special capital reserve

Special reserve for major incidents and for fluctuation of risks in accordance with Section 8 of “Regulations Governing the Setting Aside of Various Reserves by Insurance Enterprises” is placed in the special capital reserve under retained earnings.

Following the adoption of TIFRS, the “interpretations No. 10102508861 Financial-Supervisory-Property-Insurance-Corporate” issued by FSC on 5 June 2012, which sets out the following provisions for compliance:

On a public company's first-time adoption of the TIFRS, for any unrealized revaluation gains and cumulative translation adjustments (gains) recorded to shareholders' equity that the company elects to transfer to retained earnings by application of the exemption under IFRS 1, the company shall set aside an equal amount of special reserve. The Consolidated Company doesn't have the above special capital reserve result in it has no unrealized revaluation and cumulative translation adjustment (gain).

On 25 April 2018 and 26 April 2017, the Company's board of directors, acting on behalf of the shareholders, recognized special capital reserves of \$131,677 thousand and \$525,340 thousand, among which special reserves for major incidents and special reserves for fluctuation of risks in the amount of \$346,625 thousand and \$364,783 thousand had been recognized at the end of 2017 and 2016 in accordance with “Regulations Governing the Setting Aside of Various Reserves by Insurance Enterprises.” The rest of the special capital reserve will be recognized in year 2018 and 2017.

C. Undistributed earnings

(a) According to the Company's Articles of Incorporation, the Company's annual earnings, after paying tax and offsetting deficits, if any, shall be appropriated as legal capital reserve and special capital reserve according to law. The total remaining amount plus beginning undistributed earnings are the distributable earnings. The distributable earnings must be appropriated in accordance with the resolution by the shareholders' meeting. The dividends go first to preferred shareholders for current year dividends and any dividends that have been omitted in the past.

Cathay Century Insurance Co., Ltd. and Subsidiaries

Notes to consolidated financial statements-continued

(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

- (b) If there is any surplus earnings of current year not distributed by a profit-seeking enterprise, an additional profit-seeking income tax shall be levied at the rate of 10% on such undistributed surplus earnings. Before the year 2004, the term “undistributed surplus earnings” as referred to in the preceding paragraph means the approved income. Beginning from the year 2005, the term shall denote the amount of income after tax as calculated by a profit-seeking enterprise in accordance with the Commercial Accounting Act. The income tax will only be levied on the undistributed surplus earnings once.
- (c) According to the addition of Article 235-1 of the Company Act announced on 20 May 2015, the Company shall provide a fixed amount or percentage of the actual profit for a year to be distributed as “employee remuneration” after deducting and setting aside an amount equal to the cumulative losses (if any). The aforementioned employee remuneration may be made in the form of stocks or cash, which shall be determined by a resolution adopted by a majority vote at a board of directors meeting attended by two-thirds or more of the directors and be reported at a shareholders’ meeting. Furthermore the Articles of Incorporation may stipulate that the employee remuneration could be distributed to employees of affiliated enterprises meeting certain criteria. The Company amended the related regulations on the Company’s Article of Incorporation according to the aforementioned addition on 16 March, 2016.

Please refer to Note 6(24) for details on employees’ compensation and remuneration to directors and supervisors.

- (d) The Company’s distribution of 2017 retained earnings has not been approved by the shareholders as of the independent auditors’ opinion date. For related information please refer to the “Market Observation Post System” website of the Taiwan Stock Exchange Corporation.
- (e) Special reserves for major incidents and special reserves for fluctuation of risks are recorded as special capital reserve under equity at the end of this year. As of 30 June 2018, the reserves amounted to \$3,144,986 thousand.

The number of the Consolidated Company's employees were 2,234 and 2,150 as of 30 June 2018 and 2017, respectively.

According to the Company's Articles of Incorporation, 1 % to 2 % of profit of the current year is distributable as employees' compensation and no more than 15% of profit of the current year is distributable as remuneration to directors and supervisors. However, the Company's accumulated losses shall have been covered. The Company may, by a resolution adopted by a majority vote at a meeting of Board of Directors attended by two-thirds of the total number of directors, have the profit distributable as employees' compensation in the form of shares or in cash; and in addition thereto a report of such distribution is submitted to the shareholders' meeting. Information on the Board of Directors' resolution regarding the employees' compensation and remuneration to directors and supervisors can be obtained from the "Market Observation Post System" on the website of the Taiwan Stock Exchange Corporation.

 - (f) To assure effective execution of internal control within business unit to comply with relevant regulations and risk management policies of the Consolidated Company.
 - (g) To assist in collecting information regarding operation risk.

(F) Audit department

Audit the execution of risk management of each unit in the Consolidated Company according to the existing relevant regulations.

B. Scope and nature of risk reporting and evaluation system of property insurance

(A) Risks reporting

- a. Each business unit within the Consolidated Company should pass risk information to risk management unit for overseeing purpose, and propose over-limit report and responding measures when risk exposure is over limit.
- b. Risk management unit compiles risk information from each department, examine and track the use of major risk limit, submit a monthly risk management report to the general manager, and make quarterly report to the risk management committee and Board of Director to oversee risks on a regular basis.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

(B) Scope and nature of risk evaluation system

The risk management unit of the Consolidated Company and that of its parent company's, Cathay Financial Holdings, collaborate in building market risk management system. The structure will consider functionality, source of information, completeness of uploaded information, and the safety of the environment in which the system operates. Function-wise, risk management system focuses on the need of middle office to quantify risk, and it would only be authorized to risk management personnel.

C. Processes to undertake, evaluate, supervise and control insurance risk of property insurance business. Policy in underwriting to assure proper risk categorization and fee standard.

In the Consolidated Company, risk management department takes responsibilities in monitoring risks, integrate insurance risk of the Consolidated Company as a whole, and set up risk indicators, risk limit, and managing mechanism. Each related department is the execution unit of insurance risk control. They report execution process to risk management department every month based on regulation, internal rules, and professional knowledge and experience of their respective field. Risk management department then propose insurance risk management report to the board of directors each quarter.

D. Evaluate risk from the perspective of enterprise as a whole and the scope in managing insurance risk

Scope of insurance risk management of the Consolidated Company includes product design and pricing, underwriting, reinsurance, risks related to catastrophe, claim, and provision. Proper management mechanisms are set up and execute thoroughly.

E. Methods with which property insurance business limit insurance risk exposure and improper risk concentration

Before a business is introduced, the underwriting personnel will evaluate the quality of the business based on the underwriting guideline of each insurance to decide whether to undertake the business. Risk is properly avoided and controlled to reduce exposure.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

In addition, as the Consolidated Company undertakes reinsurance business, risk management mechanism is set up in accordance with “*Regulations Governing Insurance Enterprises Engaging in Operating Reinsurance and Other Risk Spreading Mechanisms*” and the ability to undertake risk is taken into account for the establishment of reinsurance risk management plan which execution is based upon. Accumulated risk with the portfolio of direct written premiums and other inward-insurance business is conducted before an individual case of outward/inward reinsurance is executed. When the cumulative insurance amount exceeds contract limit or self-retain limit, risk is diversified through facultative reinsurance.

According to the Consolidated Company’s risk management mechanism for reinsurance business, the maximum for the retained risk per risk unit is calculated as 10% of the summary amount of shareholder’s equities and special reserves (excluding of Compulsory automobile insurance). The following table summarizes the underlying retention for each risk unit by types of insurance:

	For the years ended 31 December	
	2018	2017
Fire insurance	NT\$1,233,000	NT\$1,105,000
Marine insurance	NT\$1,233,000	NT\$1,105,000
Engineering insurance	NT\$1,233,000	NT\$1,105,000
Other property insurance	NT\$1,233,000	NT\$1,105,000
Automobile insurance	NT\$1,233,000	NT\$1,105,000
Health and Accident insurance	NT\$1,233,000	NT\$1,105,000

F. Methods of asset / liability management

Provisions are evaluated on a regular basis based on the Consolidated Company’s business characteristics to insure fund allocation and the liquidity of asset investment is sufficient to meet possible future claims. Cash flow management with comprehensive consideration of the amount of fund required and its timeline of every department is conducted through fund procurement department, which is independent of trading unit.

Operation standards under crisis are set up in accordance with the “*Directions for Handling Financial Institute Crisis*” issued by FSC. When tremendous sum of fund is lost or liquidity is severely compromised, the operation crisis team will be set up immediately to evaluate the impact on fund liquidity of the Consolidated Company cautiously and assess the amount, timeline, and benefit of making up the funding gap so as to assure rights of clients and the Consolidated Company.

(4) Sensitivity of insurance risk

A. The Company

	Premium income	Expected loss ratio	Changes in income when the expected loss ratio increases 5%	
			Before reinsurance	After reinsurance
Fire insurance	\$1,618,484	45.15%	\$(80,924)	\$(57,215)
Marine insurance	343,983	58.32%	(17,199)	(5,130)
Land and air insurance	4,361,288	64.51%	(218,064)	(207,529)
Liability insurance	632,472	53.02%	(31,624)	(20,953)
Bonding insurance	70,448	18.74%	(3,522)	(930)
Other property insurance	375,740	64.65%	(18,787)	(14,948)
Accident insurance	1,552,934	40.87%	(77,647)	(72,162)
Health insurance	167,753	48.35%	(8,388)	(8,365)
Compulsory automobile liability insurance	1,432,419	NA	NA	NA

The chart above shows that with every 5% increase of the expected loss ratio of every insurance contract of the Company, certain influence will be imposed upon revenue; however, the influence has been mitigated through the arrangement of reinsurance to obtain the effect of risk diversification.

B. Cathay Insurance (Vietnam)

	Premium income	Expected loss ratio	Changes in income when the expected loss ratio increases 5%	
			Before reinsurance	After reinsurance
Automobile insurance	\$50,914	44.50%	\$(2,546)	\$(2,544)
Flood insurance	3,891	26.95%	(195)	(35)
Fire insurance	91,447	135.21%	(4,572)	(607)
Engineering insurance	2,340	0%	(117)	(4)
Accident insurance	13,404	28.53%	(670)	(670)
Liability insurance	783	51.63%	(39)	(12)

(5) Interpretation of concentration of insurance risk

A. The Company

(A) Situations that might cause concentration of insurance risk:

a. Single insurance contract or few related contracts

For the six-month period ended 30 June 2018, the Company will undertake a business with infrequent but enormous losses only if all risks are evaluated by the underwriting department based on underwriting guidelines, or are discussed by an ad hoc meeting.

b. Exposure to unanticipated change in trend

For the six-month period ended 30 June 2018, the loss rates of the rest insurance categories are still within reasonable range.

c. Material lawsuit or legal risks that could lead to huge losses in a single contract or have a broad effect on several contracts.

“Regulations for Assisting Lawsuit Cases of Cathay Century Insurance” is set up to safeguard the rights of the Company and the insured and to implement process control of lawsuit cases of insurance claim. In addition, each compliance department of the Company will appoint staff to be responsible of compliance matters, so that possible legal risk is minimized. For the six-month period ended 30 June 2018, no material lawsuit or legal risks has taken place.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

d. Correlation and mutual influence between different risks

In case of a catastrophe, beside huge sum of claim of the insured case, other risks such as market risk, credit risk, liquidity risk, can also be derived. To avoid the operation of the Company being severely endangered by these derived risks, the Company has established “Operation standards under crisis” that set up crisis team in reaction to the event. The team will execute emergent tasks such as resource coordination and fund procurement to protect the rights of the insured and the Company and to guard financial order. For the six-month period ended 30 June 2018, there is no catastrophe has taken place.

e. When a certain key variable has approached a significantly non-linear relationship with future cash flow which could dramatically influence its performance

Since the 3rd stage of liberalization of property insurance fee took into effect, the Company has conducted regular fee reviews on car insurance, fire insurance, and residential fire insurance in accordance with regulation. Fee will be raised when actual loss rate exceeds expected loss rate by a certain percentage to avoid worsening of further losses. In addition, from time to time related departments would observe the change in trend for loss rates of different product categories and adjust pricing and coverage in a timely manner to effectively lower insurance risk.

In addition, investment in financial instruments in part, on a regular basis to monitor changes in the value of the site and the risk of cash flow analysis, and supplemented by stress testing, to control and management affecting fluctuations of major risk factors.

In addition, the implementation of stress tests for overall business every year, the impact assessment of the assets and the insurance risk of extreme financial position of the Company's situation, understand the major risk factors to adjust the response in advance.

f. Concentration risks in geographic regions and operating segments

The Company's catastrophe insurance for earthquakes and floods are centralized in the areas of Taipei, Taoyuan, Hsinchu, Chiayi, Tainan, Kaohsiung and Pingtung.

Notes to consolidated financial statements-continued

(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

- (C) Disclosure the prior management performance in the risk, which had huge effect but relative low occurrence frequency, to help financial statement user to evaluate the uncertainty of this risk related cash flow.

Catastrophes such as earthquake, typhoon, and flood, will bring tremendous insurance risk to property insurance business.

To control infrequent risk that impacts significantly, the Company assess risk of natural disasters and specially covered item (e.g., independent power producer and abutment project). The Company also holds loss prevention seminars regularly to help customers reduce the incidence rate of disasters.

B. Cathay Insurance (Vietnam) Ltd.

- (A) Situations that might cause concentration of insurance risk:

- a. Single insurance contract or few related contracts

For the the six-month period ended 30 June 2018, Cathay Insurance (Vietnam) will undertake a business with infrequent but enormous losses only if all risks are evaluated by the underwriting department based on underwriting guidelines, or are discussed by an ad hoc meeting.

- b. Exposure to unanticipated change in trend

For the the six-month period ended 30 June 2018, the loss rates of the rest insurance categories are still within reasonable range

- c. Material lawsuit or legal risks that could lead to huge losses in a single contract or have a broad effect on several contracts.

“THE PROCEDURE FOR SUBROGATION” and “THE PROCEEDINGS OF THE COURT” is set up to safeguard the rights of Cathay Insurance (Vietnam) and the insured and to implement process control of lawsuit cases of insurance claim. In addition, each compliance department of Cathay Insurance (Vietnam) will appoint staff to be responsible of compliance matters, so that possible legal risk is minimized. For the six-month period ended 30 June 2018, no material lawsuit or legal risks has taken place.

Note 2 : Exclude cash on hand and revolving funds.

(8) Financial risk management objectives and policies

The Consolidated Company's principal financial risk management objective is to manage the market risk, credit risk and liquidity risk related to its operating activities. The Consolidated Company identifies, measures and manages the aforementioned risks based on the Consolidated Company's policy and risk appetite.

The Consolidated Company has established appropriate policies, procedures and internal controls for financial risk management. Before entering into significant transactions, due approval process by the Board of Directors and Audit Committee must be carried out based on related protocols and internal control procedures. The Consolidated Company complies with its financial risk management policies at all times.

A. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of the changes in market prices. Market prices comprise currency risk, interest rate risk and other price risk (such as equity risk).

In practice, it is rarely the case that a single risk variable will change independently from other risk variable, there are usually interdependencies between risk variables. However the sensitivity analysis disclosed below does not take into account the interdependencies between risk variables.

(A) Foreign currency risk

The Consolidated Company is exposed to foreign exchange risk from US and NT dollars exchanges for investing in foreign special purpose money trust. Since the amount of investment is significant, the Consolidate Company engage in forward foreign exchange contracts for hedging purposes.

Cathay Century Insurance Co., Ltd. and Subsidiaries

Notes to consolidated financial statements-continued

(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

The Consolidated Company is further exposed to exchange rate risk for engaging in reinsurance business involving transactions denominated in non-functional currency. Because this type of transaction usually has a relatively shorter collection period, the exchange rate fluctuations are not significant. The Consolidated Company does not engage in hedging in relation to this type of transaction.

The Consolidated Company's self-evaluation showed that the terms of the hedging instrument and the hedged items are the same, so as to maximize the effectiveness of the hedge.

(B) Interest rate risk

Interest rate risk results from changes in the market interest rates which cause the fair value of financial instruments or the future cash flow to fluctuate. The Consolidated Company's interest rate risk primarily results from floating rate investments classified as financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income.

(C) Equity price risk

The Consolidated Company hold equity securities of local and foreign listed companies. Their prices are affected by uncertainties about the future values of the investment securities. Equity securities of listed companies held by the Consolidated Company is classified under financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income. The Consolidated Company manage the equity price risk through diversification and placing limits on individual and total equity instruments.

B. Credit risk

(A) Credit risk management policies

The Consolidated Company trades only with established and creditworthy third parties. The Consolidated Company's policy is that all customers who trade on credit terms are subject to credit verification procedures, and that premiums receivable and notes receivable collections are monitored on an ongoing basis. Therefore, the Consolidated Company's bad debt is insignificant. On the other hand, in the event a counterparty's creditworthiness deteriorates, the Consolidated Company will suspend the related contracts and resume exercising relevant rights and obligations when transaction status is restored.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

The Consolidated Company's secured lending operations must be approved and verified by performing credit verification procedures, and obtain real property security provided by the counterparty. In the event the counterparty's creditworthiness deteriorate, the Consolidated Company may exercise under their own discretion the relevant security rights upon presentation, to protect the Consolidated Company's interests.

The Consolidated Company's credit risk exposure of financial transactions include: issuer risk, counterparty risk and the credit risk of underlying assets.

- a. Issuer risk is the risk that the issuer of the debt instrument held by the Consolidated Company or banks with which the Consolidated Company maintain deposits fail to deliver in accordance with the agreement due to default, bankruptcy or settlement, and the Consolidated Company incur financial losses as a result.
- b. Counterparty risk is the risk that a counterparty of the Consolidated Company fail to deliver as obligated before the settlement date which then causes losses to the Consolidated Company.
- c. Credit risk of the underlying assets is the risk of loss due to weakened credit quality, increase in credit premium, credit rating downgrade or default of underlying assets linked to a financial instrument.

(B) Credit concentration risk analysis

- a. The amounts of credit risk exposure of the Consolidated Company's financial assets are as follows:

(C) Determinants for whether the credit risk has increased significantly since initial recognition

- a. The Company assesses, at each reporting date, whether the credit risk of a financial instrument in the scope of impairment requirements under IFRS 9 has increased significantly since initial recognition. To make this assessment, the Consolidated Company considers reasonable and supportable information (including forward-looking information) which indicates that credit risk has increased significantly since initial recognition. Main indicators include external credit rating, past due information, credit spread and other market information which shows that the credit risk related to borrowers and issuers has increased significantly.
- b. If the credit risk at the reporting date is determined to be low, an entity can assume that the credit risk of the financial instrument has not increased significantly since initial recognition.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

(D) Definitions of a default occurring on a financial asset and a credit-impaired financial asset

The definition of a default occurring on financial assets of the Consolidated Company is the same as a credit-impaired financial asset. If one or more of the criteria below are met, a default occurs and a financial asset is credit-impaired:

- a. Quantitative factor: when contractual payments are more than 90 days past due, a default occurs and a financial asset is credit-impaired.
- b. Qualitative factor: an evidence indicates that the issuers or borrowers cannot pay the contractual payments or that they have significant financial difficulties, for example:
 - (a) The issuers and borrowers have entered bankruptcy or are probable to enter bankruptcy or financial reorganization.
 - (b) The borrowers fail to make interest or principal payments based on original terms and conditions.
 - (c) The collaterals of the borrowers are seized provisionally or enforced.
 - (d) The borrowers claim for a change of credit conditions due to financial difficulties.
- c. The above-mentioned definitions of a default occurring on a financial asset and a credit impairment are applicable to all financial assets held by the Consolidated Company, and are align with those of relevant financial assets for internal credit risk management. The definitions are also applicable to related impairment assessment model.

(E) Measurement of expected credit losses

a. Methods and assumptions adopted

For financial instruments on which the credit risk has not increased significantly since initial recognition, the Consolidated Company measures loss allowance for financial instruments at an amount equal to 12-month expected credit losses; for financial instruments on which the credit risk has increased significantly since initial recognition or are credit-impaired, the Consolidated Company measures loss allowance for financial instruments at an amount equal to the lifetime expected credit losses.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

To measure expected credit losses, the Consolidated Company multiplies exposure at default by 12-month and the lifetime probability of default of the issuers, guarantee agencies and borrowers and loss given default. The Consolidated Company also considers the effect of the time value of money to calculate 12-month expected credit losses and the lifetime expected credit losses respectively.

Default rate is the rate that a default occurs on issuers, guarantee agencies and borrowers. Loss given default is the loss rate resulted from the default of issuers, guarantee agencies and borrowers. Loss given default used by the Consolidated Company in impairment assessment is based on information regularly issued by Moody's. Probability of default is based on information regularly issued by Taiwan Ratings and Moody's and is determined based upon current observable information and macroeconomic information (gross domestic product and economic growth rate, for example) with adjustments of historic data. Exposure at default is measured at the amortized cost and interest receivables of the financial assets.

b. Consideration of forward-looking information

The Consolidated Company takes forward-looking information into consideration while measuring expected credit losses of the financial assets.

C. Operational Risk

In order to avoid the potential losses caused by failed internal controls, employee fraud or misconduct and management negligence, the Company had set up the standard operating procedures and computer systems based on the business nature of the front, middle, and back departments, and manage the operational risk effectively by strict systems of internal control, internal audits, external audits, and regulatory compliance. The Company had set and implemented "Regulations Reporting the Losses by Operational Risk" as well to establish the data base of losses resulting from operational risk by "Losses by Operational Risk Reporting System".

D. Liquidity risk

(A) Sources of liquidity risk

Liquidity risks of the financial instruments are classified as "Funding liquidity risk" and "Market liquidity risk". "Funding liquidity risk" represents the default risk that the Company is unable to turn assets into cash or obtain sufficient funds. "Market liquidity risk" represents the risk of significant changes in fair value that the Company faces when it sells or offsets its assets during market disorder.

(B) Liquidity risk management

The Consolidated Company established a capital liquidity management mechanism based on the business features and monitoring short-term cash flow. Considering the trading volume and holding position, the Consolidated Company carefully manage the market liquidity risk. Moreover, the Consolidated Company have drawn up a plan for capital requirements with respect to abnormal and emergency conditions to deal with significant liquidity risk.

Depending on the actual management need or special situation, the Consolidated Company uses models to assess cash flow risk, such as cash flow model or stress testing model.

English Translation of Financial Statements Originally Issued in Chinese

Cathay Century Insurance Co., Ltd. and Subsidiaries

Notes to consolidated financial statements-continued

(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

Stress testing analysis is used to test changes of capital liquidity in the event of extreme in order to ensure liquidity. Stress scenarios, including significant market volatility, a variety of credit events, non-anticipated events of the financial market liquidity crunch and any other scenario which may trigger liquidity pressures is used to assess the Consolidated Company's overall capital supply, demand and changes in cash flow gap.

In the event of cash flow gap, the risk management department will conduct an internal discussion and report the result to supervisors and the funding management department. The risk management department will take necessary measures to prevent further stressful events.

(C) The table below summarizes the maturity profile of the Consolidated Company's financial liabilities based on contractual undiscounted payments.

Liabilities	30 June 2018					
	Total	Less than 6 months	6-12 months	1-2 years	2-5 years	More than 5 years

(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

E. Market risk analysis

Market risk is the risk of potential revenue and portfolio value reduction due to the fluctuations of market risk factors, such as exchange rates, commodity prices, interest rates, credit spreads, and stock prices.

The Consolidated Company continues to use market risk management tools such as value-at-risk and stress testing to completely and effectively measure, monitor and manage market risk.

(A) Value-at-risk

Value-at-risk is used to measure the maximum potential loss of a portfolio in a certain future time horizon and confidence level when the market risk factors changes. The Company estimates value at risk on the next day (week or two weeks) with a 99% level of confidence.

The value-at-risk model must reasonably, completely and accurately measure the maximum potential risk to be used as the Consolidated Company's risk management model. The risk management model must conduct back testing on an ongoing basis to ensure the model can effectively measure the maximum potential risk of a financial instrument or a portfolio.

(B) Stress testing

In addition to the value-at-risk model, the Consolidated Company periodically uses stress testing to assess the potential risk of extreme incidents. Stress testing is used to evaluate the potential impact on portfolio values when a series of financial variables undergo extreme changes.

The Consolidated Company conducts stress testing regularly on positions by simple sensitivity analysis and scenario analysis. The stress testing contains changes of various risk factors in all historical scenarios that may cause losses in an investment portfolio.

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

a. Simple Sensitivity

Simple sensitivity mainly measures changes in value of portfolio caused by specific risk factor.

b. Scenario Analysis

Scenario analysis measures the change in the total value of a portfolio under a stressful event. The measures include:

(a) Historical scenarios

The measure selects from historical data of a certain period and adds the volatility of the risk factors selected to a given portfolio, and then calculates the amount of loss.

(b) Hypothetical scenarios

Hypothetical scenario makes reasonable hypothesis with respect to possible extreme market changes and includes the risk factors related to the changes in the current portfolio to estimate the amount of loss that may incur.

The risk management department conducts stress testing regularly under historical scenario and hypothetical scenario for the Consolidated Company to perform risk analysis, risk alert and business management based on the stress test report.

30 June 2018	Stress testing

(9) Fair values of financial instruments

A. The methods and assumptions applied in determining the fair value of financial instruments:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions were used by the Consolidated Company to measure or disclose the fair values of financial assets and financial liabilities:

- (A) The carrying amount of cash and cash equivalents, accounts receivables and accounts payable approximate their fair value due to their short maturities.
- (B) For financial assets and liabilities traded in an active market with standard terms and conditions, their fair value is determined based on market quotation price (including listed equity securities, beneficiary certificates, bonds and futures, etc.) at the reporting date.
- (C) Fair value of equity instruments without market quotations (including private placement of listed equity securities, unquoted public company and private company equity securities) are estimated using the market method valuation techniques based on parameters such as prices based on market transactions of equity instruments of identical or comparable entities and other relevant information (for example, inputs such as discount for lack of marketability, P/E ratio of similar entities and Price-Book ratio of similar entities).

Cathay Century Insurance Co., Ltd. and Subsidiaries

Notes to consolidated financial statements-continued

(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

- (D) Fair value of debt instruments without market quotations, bank loans, bonds payable and other non-current liabilities are determined based on the counterparty prices or valuation method. The valuation method uses DCF method as a basis, and the assumptions such as the interest rate and discount rate are primarily based on relevant information of similar instrument (such as yield curves published by the GreTai Securities Market, average prices for Fixed Rate Commercial Paper published by Reuters and credit risk, etc.)
- (E) The fair value of derivatives which are not options and without market quotations, is determined based on the counterparty prices or discounted cash flow analysis using interest rate yield curve for the contract period. Fair value of option-based derivative financial instruments is obtained using on the counterparty prices or appropriate option pricing model (for example, Black-Scholes model) or other valuation method (for example, Monte Carlo Simulation).
- (F) The Company adjusts the credit risk of the derivative contract traded over-the-counter including credit value adjustment (“CVA”) and debit value adjustments (“DVA”), to reflect the likelihood that the counterparty (CVA) or the Company (DVA) dues the whole payment or charges the whole market value of the transactions. The Company evaluates the probability of default (“PD”) of the counterparty, through the following calculation. Under the assumption that the Company will not default, the Company determines its CVA by multiplying three factors, PD, loss given default (“LGD”), and exposure at default (“EAD”), of the counterparty. On the other hand, under the assumption that the counterparty will not default, the Company calculates its DVA by multiplying three factors, PD, LGD, and EAD, of the Company. The Company decides estimated PD by referring to the probability of default announced by external credit rating agencies. The Company sets estimated LGD at 60 % by considering the experience of John Gregory, a scholar, and foreign financial institutions. The estimated EAD for current period is evaluated by considering the fair value of the derivative instruments traded approach at OTC, which considers the adjustments of the credit risk of the derivative contract in evaluating fair value of financial instruments, to reflect the credit qualities of the counterparty and the Company, respectively.

B. Fair value of financial instruments measured at amortized cost

Other than cash and cash equivalents, accounts receivables, loans, guarantee deposits paid, accounts payable and preferred stock liability whose carrying amount approximate their fair value, the fair value of the Consolidated Company's financial assets and financial liabilities measured at amortized cost is listed in the table below:

	Carrying amount			Fair value		
	31 December			31 December		
	30 June 2018	2017	30 June 2017	30 June 2018	2017	30 June 2017
Financial assets						
Held-to-maturity financial assets	(Note 1)	\$6,606,306	\$6,784,471	(Note 1)	\$6,976,818	\$7,051,806
Debt instrument investments for which no active market exists	(Note 1)	2,008,580	2,017,715	(Note 1)	2,044,928	2,053,320
Financial assets measured at amortized cost (Note 2)		\$9,564,989	(Note 1)	(Note 1)	\$9,580,257	(Note 1)

Note 1: The Consolidated Company adopted IFRS 9 since 1 January 2018. The Consolidated Company elected not to restate prior periods in accordance with the transition provision in IFRS 9.

Note 2: Guarantee deposits paid in bonds are included.

(10) Fair value measurement hierarchy

A. Fair value measurement hierarchy

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole. Level 1, 2 and 3 inputs are described as follows:

Level 1 -Quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date

Level 2 -Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 -Unobservable inputs for the asset or liability

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Consolidated Company determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization at the end of each reporting period.

Transfers between Level 1 and Level 2

For the six-month periods ended 30 June 2018 and 2017, the Consolidated Company transferred stocks which were measured at fair value on a recurring basis, from level 2 to level 1. A total of \$101,459 thousand and \$310,800 thousand was transferred as its market price was obtainable.

Reconciliation for fair value measurements in Level 3

Reconciliation for fair value measurements in Level 3 of the fair value hierarchy for movements is as follows:

<u>Financial assets at fair value through other comprehensive income</u>	<u>Stocks</u>
1 January 2018(Note)	\$438,600
Total gains (losses) recognized	
Amount recognized in other comprehensive income (Unrealized gains (losses) on financial assets at fair value through other comprehensive income)	(35,400)
30 June 2018	<u>\$403,200</u>
1 January 2017	\$519,000
Total gains (losses) recognized	
Amount recognized in other comprehensive income (Unrealized gains (losses) on available-for-sale financial assets)	(49,800)
30 June 2017	<u>\$469,200</u>

Note : The Consolidated Company adopted IFRS 9 since 1 January 2018. The Consolidated Company elected not to restate prior periods in accordance with the transition provision in IFRS 9.

Total gains (losses) recognized in profit or loss in the table above contains gains (losses) related to assets on hand as at 30 June 2018 and 2017 are both in the amount of \$0 thousand.

Information on significant unobservable inputs to valuation

Description of significant unobservable inputs to valuation of recurring fair value measurements categorized within Level 3 of the fair value hierarchy is as follows:

English Translation of Financial Statements Originally Issued in Chinese
Cathay Century Insurance Co., Ltd. and Subsidiaries
Notes to consolidated financial statements-continued
(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

As of 30 June 2018

	Valuation techniques	Significant unobservable inputs	Quantitative information	Relationship between inputs and fair value	Sensitivity of the input to fair value
Financial assets:					
Financial assets at fair value through other comprehensive income					
Stocks	Market approach	discount for lack of marketability	30%	The higher the discount for lack of marketability, the lower the fair value of the stocks	5% increase (decrease) in the discount for lack of marketability would result in increase (decrease) in the Consolidated Company's equity by \$28,800 thousand.

As of 31 December 2017

	Valuation techniques	Significant unobservable inputs	Quantitative information	Relationship between inputs and fair value	Sensitivity of the input to fair value
Financial assets:					
Available-for-sale					
Stocks	Market approach	discount for lack of marketability	30%	The higher the discount for lack of marketability, the lower the fair value of the stocks	5% increase (decrease) in the discount for lack of marketability would result in increase (decrease) in the Consolidated Company's equity by \$31,200 thousand.

(Expressed in thousands of New Taiwan Dollars unless otherwise specified)

As of 30 June 2017

	Valuation techniques	Significant unobservable inputs	Quantitative information	Relationship between inputs and fair value	Sensitivity of the input to fair value
Financial assets:					
Available-for-sale					
Stocks	Market approach	discount for lack of marketability	30%	The higher the discount for lack of marketability, the lower the fair value of the stocks	5% increase (decrease) in the discount for lack of marketability would result in decrease in the Consolidated Company's equity by \$33,000 thousand and increase \$33,600 thousand.

Valuation process used for fair value measurements categorized within Level 3 of the fair value hierarchy

The Consolidated Company's Risk Management Department is responsible for validating the fair value measurements and ensuring that the results of the valuation are in line with market conditions, based on independent and reliable inputs which are consistent with other information, and represent exercisable prices. The Department analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Consolidated Company's accounting policies at each reporting date.

(6) Capital management

A. Objective

In order to enhance the Consolidated Company's capital structure and business growth, the Consolidated Company has established a set of capital adequacy management standards and complies with laws and regulation to maintain its capital adequacy ratio in a certain range in order to reduce all types of risks.

B. Policy

In order to assume all types of risks, the Company applies capital adequacy ratio as the index of capital adequacy. The Company calculates capital adequacy ratio periodically and aperiodically in order to understand the situation of capital adequacy in the short-run and mid-term. The Company set business objectives, plan assets allocation based on the ratio and dividend policy.

C. Procedures

a. Periodically

Regularly review the capital adequacy ratios in order to implement the capital adequacy management. The Company provides capital adequacy report every half year by the competent authority and analyze the possible changes in its own capital and risk capital when forecasting the investment development plan. The Company ensures a healthy capital structure and implements capital adequacy management.

b. Aperiodically

Practice scenario analysis for capital adequacy ratio focusing on the Company's usage of funding, business development, reinsurance arrangement, or changes of the financial environment including updates of laws and regulations.
