Cathay Century Insurance Co., Ltd. and Subsidiaries

Consolidated Financial Statements for the Nine Months Ended September 30, 2024 and 2023 and Independent Auditors' Review Report

INDEPENDENT AUDITORS' REVIEW REPORT

The Board of Directors and Shareholders Cathay Century Insurance Co., Ltd.

Introduction

We have reviewed the accompanying consolidated balance sheets of Cathay Century Insurance Co., Ltd. (the "Company") and its subsidiaries (collectively referred to as the "Group") as of September 30, 2024 and 2023, the related consolidated statements of comprehensive income for the three months ended September 30, 2024 and 2023 and for the nine months ended September 30, 2024 and 2023, the consolidated statements of changes in equity and cash flows for the nine months then ended, and the related notes to the consolidated financial statements, including material accounting policy information (collectively referred to as the "consolidated financial statements"). Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Insurance Enterprises and International Accounting Standard 34 "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on the consolidated financial statements based on our reviews.

Scope of Review

We conducted our reviews in accordance with the Standards on Review Engagements of the Republic of China 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our reviews, nothing has come to our attention that caused us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as of September 30, 2024 and 2023, its consolidated financial performance for the three months ended September 30, 2024 and 2023, and its consolidated financial performance and its consolidated cash flows for the nine months ended September 30, 2024 and 2023, in accordance with the Regulations Governing the Preparation of Financial Reports by Insurance Enterprises and International Accounting Standard 34 "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

The engagement partners on the reviews resulting in this independent auditors' review report are Shiuh-Ran, Cheng and Yu-Hong, Kuo.

Deloitte & Touche Taipei, Taiwan Republic of China

Notice to Readers

The accompanying consolidated financial statements are intended only to present the consolidated financial position, financial performance and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to review such consolidated financial statements are those generally applied in the Republic of China.

For the convenience of readers, the independent auditors' review report and the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language independent auditors' review report and consolidated financial statements shall prevail.

CASH AND CASH EQUIVALENTS AT THE END OF THE PERIOD	\$ 9,954,838	\$ 9,508,929		
The accompanying notes are an integral part of the consolidated financial s	tatements.	(Concluded)		

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2024 AND 2023 (In Thousands of New Taiwan Dollars, Unless Stated Otherwise)

1. GENERAL INFORMATION

Cathay Century Insurance Co., Ltd. (the "Company") was incorporated in Taiwan on July 19, 1993, under the Company Act of the Republic of China (R.O.C.). On April 22, 2002, the Company became a wholly-owned subsidiary of Cathay Financial Holdings Co., Ltd. ("Cathay Financial Holdings") through a share swap pursuant to the Financial Holdings Company Act. The Company was renamed from Tong-Tai Insurance Co., Ltd. to Cathay Century Insurance Co., Ltd., as approved by Letter No. 0910706108 issued by the Ministry of Finance on June 28, 2002 and officially announced on August 2, 2002. The Company mainly engages in the business of property and casualty insurance. The Company's registered office and the main business location are at No. 296, Sec. 4, Jen Ai Road, Taipei, Taiwan, R.O.C. Cathay Financial Holdings is the Company's parent company and ultimate parent company.

The consolidated financial statements are presented in the Company's functional currency, the New Taiwan dollar.

2. APPROVAL OF FINANCIAL STATEMENTS

The consolidated financial statements were approved by the Company's board of directors on November 7, 2024.

3. APPLICATION OF NEW, AMENDED AND REVISED STANDARDS AND INTERPRETATIONS

a. Initial application of the amendments to the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) (collectively, the "IFRS Accounting Standards") endorsed and issued into effect by the Financial Supervisory Commission (FSC)

The initial application of the IFRS Accounting Standards endorsed and issued into effect by the FSC did not have a material impact on the Group's accounting policies.

b. The IFRS Accounting Standards endorsed by the FSC for application starting from 2025

	Effective Date
	Announced by International
	Accounting Standards Board
New, Amended and Revised Standards and Interpretations	(IASB)

Amendments to IAS 21 "Lack of Exchangeability"

January 1, 2025 (Note 1)

Note 1: An entity shall apply those amendments for annual reporting periods beginning on or after January 1, 2025. Upon initial application of the amendments to IAS 21, the Group shall not restate the comparative information and shall recognize any effect of initially applying the amendments as an adjustment to the opening balance of retained earnings or, if applicable, to the cumulative amount of translation differences in equity as well as affected assets or liabilities.

As of the date the consolidated financial statements were authorized for issue, the Group is continuously assessing other impacts of the above amended standards and interpretations on the Group's financial position and financial performance and will disclose the relevant impact when the assessment is completed.

c. The IFRS Accounting Standards in issue but not yet endorsed and issued into effect by the FSC

New, Amended and Revised Standards and Interpretations	Effective Date Announced by IASB (Note 1)
Annual Improvements to IFRS Accounting Standards - Volume 11	January 1, 2026
Amendments to IFRS 9 and IFRS 7 "Amendments to the Classification and Measurement of Financial Instruments"	January 1, 2026
Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets between an Investor and its Associate or Joint Venture"	To be determined by IASB
IFRS 17 "Insurance Contracts"	January 1, 2023
Amendments to IFRS 17	January 1, 2023
Amendments to IFRS 17 "Initial Application of IFRS 17 and IFRS 9 - Comparative Information"	January 1, 2023
IFRS 18 "Presentation and Disclosure in Financial Statements"	January 1, 2027
IFRS 19 "Subsidiaries without Public Accountability: Disclosures"	January 1, 2027

Note 1: Unless stated otherwise, the above IFRS Accounting Standards are effective for annual reporting periods beginning on or after their respective effective dates.

1) IFRS 18 "Presentation and Disclosure in Financial Statements"

IFRS 18 will supersede IAS 1" Presentation of Financial Statements". The main changes comprise:

- Items of income and expenses included in the statement of profit or loss shall be classified into the operating, investing, financing, income taxes and discontinued operations categories.
- The statement of profit or loss shall present totals and subtotals for operating profit or loss, profit or loss before financing and income taxes and profit or loss.
- Provides guidance to enhance the requirements of aggregation and disaggregation: The Group shall identify the assets, liabilities, equity, income, expenses and cash flows that arise from individual transactions or other events and shall classify and aggregate them into groups based on shared characteristics, so as to result in the presentation in the primary financial statements of line items that have at least one similar characteristic. The Group shall disaggregate items with dissimilar characteristics in the primary financial statements and in the notes. The Group labels items as "other" only if it cannot find a more informative label.
- Disclosures on Management-defined Performance Measures (MPMs): When in public communications outside financial statements and communicating to users of financial statements management's view of an aspect of the financial performance of the Group as a whole, the Group shall disclose related information about its MPMs in a single note to the financial statements, including the description of such measures, calculations, reconciliations to the subtotal or total specified by IFRS Accounting Standards and the income tax and non-controlling interests effects of related reconciliation items.

2) IFRS 17 "Insurance Contracts" and its amendments

IFRS 17 sets out the accounting standards for insurance contracts and it will supersede IFRS 4. The main standards and amendments of IFRS 17 are as follows:

Level of aggregation

IFRS 17 requires the Group to identify portfolios of insurance contracts. A portfolio comprises contracts subject to similar risks and managed together. Contracts within a product line would be expected to have similar risks and hence would be expected to be in the same portfolio if they are managed together. The Group should divide a portfolio of insurance contracts issued into a minimum of:

- a) A group of contracts that are onerous at initial recognition;
- b) A group of contracts that at initial recognition have no significant possibility of becoming onerous subsequently; and
- c) A group of the remaining contracts in the portfolio.

The Group should not include contracts issued more than one year apart in the same group, and the recognition and measurements of IFRS 17 should be applied to all identified groups of contracts.

Recognition

The Group should recognize a group of insurance contracts it issues from the earliest of the following:

- a) The beginning of the coverage period of the group of contracts;
- b) The date when the first payment from a policyholder in the group becomes due; and
- c) For a group of onerous contracts, when the group becomes onerous.

Measurement on initial recognition

On initial recognition, the Group should measure a group of insurance contracts at the total of the fulfilment cash flows and the contractual service margin. The fulfilment cash flows comprise estimates of future cash flows, adjustments to reflect the time value of money and financial risk related to the future cash flows, and a risk adjustment for non-financial risk. The contractual service margin represents the unearned profit for the group of insurance contracts that the Group will recognize as it provides insurance contract services in the future. Unless a group of contracts is onerous, the Group should measure the contractual service margin on initial recognition of the group of insurance contracts at an amount that results in no income or expenses arising from:

- a) The initial recognition of an amount for the fulfilment cash flows;
- b) Any cash flows arising from the contracts in the group at that date; and
- c) The derecognition at the date of initial derecognition of:
 - i. Any assets for insurance acquisition cash flows;
 - ii. Any other asset or liability previously recognized for cash flows related to the group of contracts.

Subsequent measurement

The carrying amount of a group of insurance contracts at the end of each reporting period should be the sum of the liability for remaining coverage and the liability for incurred claims. The liability for remaining coverage comprises the fulfilment cash flows related to future services and the contractual service margin; the liability for incurred claims comprises the fulfilment cash flows related to past services. If a group of insurance contracts becomes onerous (or more onerous) on subsequent measurement, the Group should recognize a loss immediately in profit or loss.

Onerous contracts

An insurance contract is considered onerous at the date of initial recognition if the fulfilment cash flows allocated to the contracts, any previously recognized insurance acquisition cash flows and any cash flows arising from the contract at the date of initial recognition in total are a net outflow. The Group should recognize a loss in profit or loss for the net outflow for the group of onerous contracts, resulting in the carrying amount of the liability for the group of onerous contracts being equal to the fulfilment cash flows and the contractual service margin of the group being zero. The contractual service margin cannot increase and no revenue can be recognized, until the onerous amount previously recognized has been reversed in profit or loss as part of a service expense. Before the loss previously recognized on the onerous group is reversed, the Group should not recognize contractual service margin or insurance revenue.

Premium Allocation Approach (PAA)

The Group may simplify the measurement of a group of insurance contracts using the PAA if, and only if, at the inception of the group:

- a) The Group reasonably expects that such simplification would produce a measurement of the liability for remaining coverage for the group that would not differ materially from the one that would be produced by applying the general measurement model; or
- b) The coverage period of each contract in the group is one year or less.

At the inception of the Group, if the Group expects significant variability in the fulfilment cash flows that would affect the measurement of the liability for remaining coverage during the period before a claim is incurred, the above-mentioned criterion 1) is not met.

Using the PAA, the liability for remaining coverage on initial recognition should be:

- a) The premiums received at initial recognition;
- b) Minus any insurance acquisition cash flows at that date; and
- c) Plus or minus any amount arising from the derecognition at that date of:
 - i. Any asset for insurance acquisition cash flows; and
 - ii. Any other asset or liability previously recognized for cash flows related to the group of insurance contracts.

Subsequently, the liability for remaining coverage should be adjusted as plus the premiums received and the amortization of insurance acquisition cash flows and minus the amount recognized as insurance revenue for services provided and any investment component paid or transferred to the liability for incurred claims in the period.

Investment contracts with discretionary participation features

An investment contract with a discretionary participation features is a financial instrument and it does not include a transfer of significant insurance risk. An investment contract with discretionary participation features the Group issues should apply the requirements of the IFRS 17 if the Group also issues insurance contracts.

Modification and derecognition

If the terms of an insurance contract are modified and any of the specific conditions is met, resulting in a substantive modification, the Group should derecognize the original contract and recognize the modified contract as a new contract.

The Group shall derecognize an insurance contract when it is extinguished, or if any of the conditions of a substantive modification is met.

Transition

The Group shall apply IFRS 17 retrospectively unless it is impracticable, in which case the Group may choose to adopt the modified retrospective approach or the fair value approach.

Under the modified retrospective approach, the Group should use reasonable and supportable information and maximize the use of information that would have been used to apply a full retrospective approach, but only need to use information available without undue cost or effort. If such reasonable and supportable information is unavailable, the Group should apply fair value approach.

Under the fair value approach, the Group should determine the contractual service margin at the transition date as the difference between the fair value of a group of insurance contracts at that date and the fulfilment cash flows measured at that date.

Redesignation of financial assets

At the date of initial application of IFRS 17, an entity which had applied IFRS 9 may redesignate the classification of an eligible asset that meets the condition in paragraph C29 of IFRS 17. The entity is not required to restate the comparative information to reflect changes in the classifications of these assets, and any difference between the previous carrying amount and the carrying amount at the date of initial application of these financial assets should be recognized in the opening retained earnings (or other component of equity, as appropriate) at the date of initial application. If an entity restates the comparative information, the restated financial statements must reflect all the requirements of IFRS 9 for those affected financial assets.

In addition, an enterprise which had applied IFRS 9 before the initial application of IFRS 17 could apply the classification overlay on an individual basis to the financial assets that had derecognized during the comparative period as if those financial assets had been reclassified in the comparative period in accordance with the redesignation requirements in paragraph C29 of IFRS 17.

Except for the above impact, as of the date the consolidated financial statements were authorized for issue, the Group is continuously assessing other impacts of the above amended standards and interpretations on the Group's financial position and financial performance and will disclose the relevant impact when the assessment is completed.

4. SUMMARY OF MATERIAL ACCOUNTING POLICY INFORMATION

a. Statement of compliance

These interim consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Insurance Enterprises and IAS 34 "Interim Financial Reporting" as endorsed and issued into effect by the FSC. Disclosure information included in these interim consolidated financial statements is less than the disclosure information required in a complete set of annual consolidated financial statements.

b. Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis except for financial instruments which are measured at fair value and net defined benefit liabilities which are measured at the present value of the defined benefit obligation less the fair value of plan assets.

The fair value measurements, which are grouped into Levels 1 to 3 based on the degree to which the fair value measurement inputs are observable and based on the significance of the inputs to the fair value measurement in its entirety, are described as follows:

- 1) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities;
- 2) Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- 3) Level 3 inputs are unobservable inputs for an asset or liability.

c. Classification of current and non-current assets and liabilities

Assets and liabilities of this consolidated financial statement are classified by nature and are presented in the order of liquidity instead of being classified as current or noncurrent.

d. Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and the entities controlled by the Company (i.e., its subsidiaries).

Income and expenses of subsidiaries acquired or disposed of during the period are included in the consolidated statement of comprehensive income from the effective dates of acquisitions up to the effective dates of disposals, as appropriate.

Adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those of the Group.

All intra-group transactions, balances, income and expenses are eliminated in full upon consolidation.

Refer to Note 13 and Table 5 for detailed information on subsidiaries (including percentages of ownership and main businesses).

e. Foreign currencies

In preparing the financial statements of each individual entity, transactions in currencies other than the entity's functional currency (i.e., foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions.

At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Exchange differences on monetary items arising from settlement or translation are recognized in profit or loss in the period in which they arise.

Non-monetary items denominated in foreign currencies that are measured at fair value are retranslated at the rates prevailing at the date when the fair value is determined. Exchange differences arising from the retranslation of non-monetary items are included in profit or loss for the period except for exchange differences arising from the retranslation of non-monetary items in respect of which gains and losses are recognized directly in other comprehensive income, in which case, the exchange differences are also recognized directly in other comprehensive income.

Non-monetary items denominated in a foreign currency and measured at historical cost is stated at the reporting currency as originally translated from the foreign currency.

For the purpose of presenting consolidated financial statements, the functional currencies of the group entities (including subsidiaries, associates, in other countries that use currencies which are different from the currency of the Company) are translated into the presentation currency, the New Taiwan dollar, as follows: Assets and liabilities are translated at the exchange rates prevailing at the end of the reporting period; and income and expense items are translated at the average exchange rates for the period. The resulting currency translation differences are recognized in other comprehensive income.

f. Investments in associates

An associate is an entity over which the Group has significant influence and which is neither a subsidiary nor an interest in a joint venture.

The Group uses the equity method to account for its investments in associates.

Under the equity method, investments in an associate are initially recognized at cost and adjusted thereafter to recognize the Group's share of the profit or loss and other comprehensive income of the associate. The Group also recognizes the changes in the Group's share of the equity of associates.

When the Company subscribes for additional new shares of an associate at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment differs from the amount of the Group's proportionate interest in the associate. The Group records such a difference as an adjustment to investments with the corresponding amount charged or credited to capital surplus - changes in capital surplus from investments in associates and joint ventures accounted for using the equity method. If the Group's ownership interest is reduced due to its additional subscription of the new shares of the associate, the proportionate amount of the gains or losses previously recognized in other comprehensive income in relation to that associate is reclassified to profit or loss on the same basis as would be required had the investee directly disposed of the related assets or liabilities. When the adjustment should be debited to capital surplus, but the capital surplus recognized from investments accounted for using the equity method is insufficient, the shortage is debited to retained earnings.

When the Group's share of losses of an associate equals or exceeds its interest in that associate (which includes any carrying amount of the investment accounted for using the equity method and long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognizing its share of further loss, if any. Additional losses and liabilities are recognized only to the extent that the Group has incurred legal obligations, or constructive obligations, or made payments on behalf of that associate.

The entire carrying amount of an investment (including goodwill) is tested for impairment as a single asset by comparing its recoverable amount with its carrying amount. Any impairment loss recognized is not allocated to any asset, including goodwill, that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognized to the extent that the recoverable amount of the investment subsequently increases.

The Group discontinues the use of the equity method from the date on which its investment ceases to be an associate. Any retained investment is measured at fair value at that date, and the fair value is regarded as the investment's fair value on initial recognition as a financial asset. The difference between the previous carrying amount of the associate attributable to the retained interest and its fair value is included in the determination of the gain or loss on disposal of the associate. The Group accounts for all amounts previously recognized in other comprehensive income in relation to that associate on the same basis as would be required had that associate directly disposed of the related assets or liabilities. If an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate, the Group continues to apply the equity method and does not remeasure the retained interest.

When the Group transacts with its associate, profits and losses resulting from the transactions with the associate are recognized in the Group's consolidated financial statements only to the extent of interests in the associate that are not related to the Group.

g. Property and equipment

Property and equipment are initially measured at cost and subsequently measured at cost less accumulated depreciation and accumulated impairment loss.

The depreciation of property and equipment is recognized using the straight-line method. Each significant part is depreciated separately. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effects of any changes in estimate accounted for on a prospective basis.

On derecognition of an item of property and equipment, the difference between the sales proceeds and the carrying amount of the asset is recognized in profit or loss.

h. Intangible assets

1) Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are initially measured at cost and subsequently measured at cost less accumulated amortization and accumulated impairment loss. Amortization is recognized on a straight-line basis. The estimated useful lives, residual values, and amortization methods are reviewed at the end of each reporting period, with the effect of any changes in the estimates accounted for on a prospective basis.

2) Derecognition of intangible assets

On derecognition of an intangible asset, the difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss.

i. Impairment of property and equipment, right-of-use assets and intangible assets

At the end of each reporting period, the Group reviews the carrying amounts of its property and equipment, right-of-use assets and intangible assets to determine whether there is any indication that those assets have suffered any impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are allocated to the individual cash-generating units; otherwise, they are allocated to the smallest group of cash-generating units.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the assets may be impaired.

The recoverable amount is the higher of fair value less costs to sell and value in use. If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount, with the resulting impairment loss recognized in profit or loss.

When an impairment loss is subsequently reversed, the carrying amount of the corresponding asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but only to the extent of the carrying amount that would have been determined had no impairment loss been recognized on the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognized in profit or loss.

j. Financial instruments

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the instruments.

Transaction costs that are directly attributable to the acquisition or issuance of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss (FVTPL)) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognized immediately in profit or loss.

1) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

a) Categories of financial assets, initial recognition and subsequent measurement

Financial assets are classified into the following categories: Financial assets at FVTPL, financial assets at amortized cost and investments in debt instruments at fair value through other comprehensive income (FVTOCI).

i. Financial assets at FVTPL

Financial assets are classified as at FVTPL when such a financial asset is mandatorily classified or designated as at FVTPL, including investments in equity instruments that are not designated as at FVTOCI and debt instruments that do not meet the amortized cost criteria or the FVTOCI criteria.

Financial assets at FVTPL are subsequently measured at fair value, with any gains or losses arising on remeasurement recognized in profit or loss. The net gain or loss recognized in profit or loss incorporates any dividends or interest earned on such a financial asset. Fair value is determined in the manner described in Note 26.

In addition, to reduce the fluctuations in profit or loss as a result of IFRS 9 being applied earlier than IFRS 17, the Group elects to remove profit or loss arising from changes in fair value in subsequent measurement and present it in other comprehensive income based on the overlay approach under IFRS 4. Overlay approach is applied to financial assets if all of the following conditions are met:

i) The financial assets are held in respect of activities related to IFRS 4.

- ii) The financial assets are measured at FVTPL applying IFRS 9 but would not have been measured at FVTPL in its entirety applying under IAS 39.
- iii) The financial assets designated to apply the overlay approach at initial recognition when an entity first applies IFRS 9 or when a new financial asset is initially recognized or when a financial asset newly meets the criteria having previously not met.

ii. Financial assets at amortized cost

Financial assets that meet the following conditions are subsequently measured at amortized cost:

- i) The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- ii) The contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Subsequent to initial recognition, financial assets at amortized cost, including cash and cash equivalents and receivables at amortized cost, equal the gross carrying amount determined using the effective interest method less any impairment loss. Exchange differences are recognized in profit or loss.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of such a financial asset, except for:

- Purchased or originated credit-impaired financial assets, for which interest income is calculated by applying the credit-adjusted effective interest rate to the amortized cost of such financial assets; and
- ii) Financial asset that is not credit-impaired on purchase or origination but has subsequently become credit impaired, for which interest income is calculated by applying the effective interest rate to the amortized cost of such financial assets in subsequent reporting periods.

A financial asset is credit impaired when one or more of the following events have occurred:

- i) Significant financial difficulty of the issuer or the borrower;
- ii) Breach of contract, such as a default;
- iii) It is becoming probable that the borrower will enter bankruptcy or undergo a financial reorganization; or
- iv) The disappearance of an active market for that financial asset because of financial difficulties.

iii. Investments in debt instruments at FVTOCI

Debt instruments that meet both of the following conditions are subsequently measured at FVTOCI:

i) The debt instrument is held within a business model whose objective is achieved by both the collecting of contractual cash flows and the selling of such financial assets; and

ii) The contractual terms of the debt instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Investments in debt instruments at FVTOCI are subsequently measured at fair value. Changes in the carrying amounts of these debt instruments relating to changes in foreign currency exchange rates, interest income calculated using the effective interest method and impairment losses or reversals are recognized in profit or loss. Other changes in the carrying amount of these debt instruments are recognized in other comprehensive income and will be reclassified to profit or loss when the investment is disposed of.

b) Impairment of financial assets

The Group recognizes a loss allowance for expected credit losses (ECLs) on financial assets at amortized cost (including receivables) and investments in debt instruments that are measured at FVTOCI.

The Group always recognizes lifetime ECLs for receivables. For all other financial instruments, the Group recognizes lifetime ECLs when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on a financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month ECLs.

ECLs reflect the weighted average of credit losses with the respective risks of default occurring as the weights. Lifetime ECLs represent the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECLs represent the portion of lifetime ECLs that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

For internal credit risk management purposes, the Group determines that the following situations indicate that a financial asset is in default without taking into account any collateral held by the Group:

- i. Internal or external information shows that the debtor is unlikely to pay its creditors.
- ii. Financial asset is more than 90 days past due unless the Group has reasonable and corroborative information to support a more lagged default criterion.

The Group recognizes an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at FVTOCI, for which the loss allowance is recognized in other comprehensive income and does not reduce the carrying amount of such a financial asset.

In addition, in accordance with the Regulations Governing the Procedures for Insurance Enterprises to Evaluate Assets and Deal with Non-performing/Non-accrual Loans, credit assets are classified as normal assets ("First Category"), assets that require special attention ("Second Category"), assets that are substandard ("Third Category"), assets that are doubtful ("Fourth Category") and assets for which there is loss ("Fifth Category") based on the borrower's financial conditions and the delay for payment of principal and interests as well as the status of the loan collateral and the length of time overdue. The minimum amounts of allowance for bad debts are based upon each of the following categories:

i. The sum of 0.5% of the First Category loan assets excluding life insurance policy loans, premium loans and loans to government agencies, 2% of the Second Category loan assets, 10% of the Third Category loan assets, as well as 50% and 100% of the Fourth Category and Fifth Category loan assets.

- ii. 1% of the sum of all five categories of loan assets, excluding life insurance loans, automatic premium loans and loans to government agencies.
- iii. Total unsecured portion of non-performing loans and non-accrual loans.

Besides, pursuant to Jin Guan Bao Tsai No. 10402506096, the Company shall keep the ratio of the allowance for bad debt over the loans at 1.5% or above to strengthen its ability against loss exposure to specific loan assets.

c) Derecognition of financial assets

The Group derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset at amortized cost in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss. On derecognition of an investment in a debt instrument at FVTOCI, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss which had been recognized in other comprehensive income is recognized in profit or loss.

2) Equity instruments

Debt and equity instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments issued by the Group are recognized at the proceeds received, net of direct issue costs.

The repurchase of the Company's own equity instruments is recognized in and deducted directly from equity, and its carrying amounts are calculated based on weighted average by share types. No gain or loss is recognized in profit or loss on the purchase, sale, issuance or cancellation of the Company's own equity instruments.

3) Financial liabilities

a) Subsequent measurement

Except the following situations, all the financial liabilities are measured at amortized cost using the effective interest method:

Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when such financial liabilities are held for trading.

Financial liabilities held for trading are stated at fair value, with any gains or losses arising on remeasurement recognized in profit or loss. The net gain or loss recognized in profit or loss incorporates any interest or dividends paid on the financial liability. Fair value is determined in the manner described in Note 26.

b) Derecognition of financial liabilities

The difference between the carrying amount of a financial liability derecognized and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

4) Derivative financial instruments

The Group enters into a variety of derivative financial instruments to manage its exposure to foreign exchange rate risks, including foreign exchange forward contracts, interest rate swaps, foreign exchange swaps, cross-currency swap contract, options and futures.

Derivatives are initially recognized at fair value at the date on which the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognized in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedging relationship. When the fair value of a derivative financial instrument is positive, the derivative is recognized as a financial asset; when the fair value of a derivative financial instrument is negative, the derivative is recognized as a financial liability.

Derivatives embedded in hybrid contracts that contain financial asset hosts that are within the scope of IFRS 9 are not separated; instead, the classification is determined in accordance with the entire hybrid contract. Derivatives embedded in non-derivative host contracts that are not financial assets within the scope of IFRS 9 (e.g., financial liabilities) are treated as separate derivatives when they meet the definition of a derivative; their risks and characteristics are not closely related to those of the host contracts; and the host contracts are not measured at FVTPL.

k. Reinsurance business

In order to limit the possible losses caused by certain events, the Group arranges reinsurance business based on its business needs and related insurance regulations. For reinsurance of ceded business, the Group cannot refuse to fulfill its obligations to the insured when the reinsurer fails to fulfill its obligations.

For the ceding reinsurance, reinsurance expenses are recognized based on the ceding reinsurance contract. According to matching principle, the reinsurance expenses should be recognized in the same accounting period as the insurance premiums. In addition, the Group accrues the reinsurance expense at the balance sheet date in a reasonable and systematic manner for the billing statements that have not yet been received as well as related income (for example, reinsurance commission income). The related profit or loss for reinsurance is not deferred.

Reinsurance reserve assets present the rights to reinsurers and comprise of ceded unearned premium reserve, ceded loss reserve, and ceded premium deficiency reserve, which are recognized according to the Regulations Governing the Setting Aside of Various Reserves by Insurance Enterprises and other regulations as well as the conditions of reinsurance contracts.

1. Reserves for liabilities

Insurance reserves provided for insurance contracts should be audited by the actuaries certified by the FSC and should also conform to the Regulations Governing the Setting Aside of Various Reserves by Insurance Enterprises, Regulations for the Management of the Various Reserves for Compulsory Automobile Liability Insurance, Enforcement Rules for the Risk Spreading Mechanism of Residential Earthquake Insurance and the Regulations for the Reserves for Nuclear Energy Insurance.

The descriptions of these reserves are as follows:

1) Unearned premium reserve

For an in-force contract with a remaining policy period or an unterminated insured risk, the calculation and the provision of unearned premium reserve are based on the unexpired risk of each insurance.

Unearned premium reserve for the compulsory insurance contract is provided in conformity with the Regulations for the Management of the Various Reserves for Compulsory Automobile Liability Insurance.

Unearned premium reserve for the policy-oriented residential earthquake insurance contracts is provided in conformity with the Enforcement Rules for the Risk Spreading Mechanism of Residential Earthquake Insurance.

Unearned premium reserve for nuclear energy insurance contracts is provided in conformity with the Regulations for the Reserves of Nuclear Energy Insurance.

Except as otherwise provided by regulations, the manners of provisions for unearned premium reserve are decided by actuaries according to the characteristics of each insurance, which cannot be changed without permission by the authorities, and the year-end balance of unearned premium reserve should be audited by actuaries at the end of the year.

2) Loss reserve

Loss reserve is provided for losses filed but not yet paid and losses not yet filed by insurance type based on the past experiences of actual claims and expenses in line with the actuarial principles. The reserve for losses filed but not yet paid is assessed based on the actual relevant information of each case and provided by insurance type.

Loss reserve for the compulsory insurance contracts is provided in conformity with the Regulations for the Management of the Various Reserves for Compulsory Automobile Liability Insurance.

Loss reserve for policy-oriented residential earthquake insurance contracts is provided in conformity with the Enforcement Rules for the Risk Spreading Mechanism of Residential Earthquake Insurance.

Loss reserve for Nuclear Energy Insurance contracts is provided in conformity with the Regulations for the Reserves for Nuclear Energy Insurance.

3) Special reserve

Special reserves are comprised of special reserves for catastrophic events, special reserves for fluctuation of risk and special reserves for other special purposes.

In accordance with the Regulations for the Management of the Various Reserves for Compulsory Automobile Liability Insurance, the Group shall set aside the special reserves as liabilities which is calculated based on the sum of retained earned pure premiums, recovery of loss reserve and the interest accrued of the beginning balance of the special reserve, minus the retained claims and the provision of loss reserve; if the sum of retained earned pure premiums, recovery of loss reserve and the interest accrued of the beginning balance of the special reserve in the preceding fiscal year is less than the sum of the retained claims and the provision of loss reserve, the deficit shall be amended with the cumulative recovery of the special reserve in the previous years. If any deficit remains, the balance shall be recorded as a memorandum entry and amended with the recovery of the special reserves in the subsequent years.

Furthermore, according to the Notice for the improvement of the reserves of natural disaster insurance (commercial-business earthquake, typhoon and flood insurance enterprises) issued by the Financial Supervisory Commission on November 9, 2012, except for those special reserves of compulsory automobile insurance, nuclear energy insurance, residential earthquake insurance, commercial-business earthquake insurance and typhoon and flood insurance, the special reserves recognized as liabilities before December 31, 2012 were used to compensate the deficiencies of commercial-business earthquake insurance and typhoon and flood insurance to the required level and recognized as liabilities. The remaining special reserves were reclassified as equity, net of tax according to IAS 12 starting from January 1, 2013. In addition, the above precautions were amended by Rule No. 11101405951 on June 30, 2022, and the name was changed to "Directions for Strengthening Disaster Reserve by Non-Life Insurance Enterprises". According to point eight of the Notices, when the actual retained claims that resulted from disasters exceeded the expected claims net of the reversal of the special reserve for a catastrophic event, or the reserves accumulate to the full water level, the Group should offset or recover the special reserves for hazard changes according to point three of the "Regulations Governing Various Reserves for Commercial Earthquake Insurance and Typhoon and Flood Insurance Operated by Non-Life Insurance Enterprises". The write off and recovery of special reserves for catastrophic events and fluctuation of risk that is provided under liabilities should be in conformity with the notice mentioned above.

a) Special reserves for catastrophic event

Special reserves for catastrophic events are provided at the rates for each insurance type required by the authorities.

As a single event which meets the government's definition of a major accident, special reserves for catastrophic events can be reversed if the total retained claims for each insurance type of an individual company reach \$30 million and the total claims for each insurance type of all non-life insurance companies reach \$2,000 million.

Special reserves for catastrophic events that have been provided for more than 15 years may be reversed in the recovery manner prescribed by the appointed actuary, which should be filed with the authorities. In addition, such reserves for commercial businesses earthquake insurance and typhoon and flood insurance may be reversed only if they have been provided for more than 30 years.

b) Special reserves for fluctuation of risk

For retained business of each insurance, when actual claims net of the debit amounts to special reserves for catastrophic events are lower than the expected claims, 15% of the difference should be provided as special reserves for fluctuation of risk. For commercial-business earthquake insurance and typhoon and flood insurance, the provision rate is 75% of the difference.

For retained business of each insurance, when actual claims net of the debit amounts to special reserves for catastrophic events are higher than the expected claims, the difference may be debited to the existing special reserves for fluctuation of risk. If the special reserves for fluctuation of risk for an insurance type are insufficient to cover the difference, the shortfall may be debited to the special reserves for fluctuation of risk of other insurance types. The insurance type and debit amounts for covering the shortfall should be filed with the authorities.

For each type of insurance, when the accumulated provisions of the special reserves for fluctuation of risk exceed 60% (30% for accident insurance and health insurance) of the retained earned premiums for the current year, the excess should be recovered. For commercial-business earthquake insurance and typhoon and flood insurance, if the accumulated provisions of special reserves for fluctuation of risk exceed 18 times and 8 times, respectively, of the retained earned premiums for the current year, the excess should be recovered as income.

4) Premium deficiency reserve

For unexpired in-force contracts or unterminated incurred risks of each insurance, if the estimated amounts of the future claims and expenses exceed the sum of the unearned premium reserves and the expected future premium income, the deficiency should be set aside as premium deficiency reserve.

5) Policy reserve

The minimum provision for policy reserve for health insurance with policy periods longer than one year is determined by the full preliminary term method. However, the method of provision for health insurance with a special nature is regulated by the authorities.

6) Liability adequacy reserve

When performing the liability adequacy test required by IFRS 4, the future cash flows are estimated based on current information on recognized liabilities as of each reporting date. If the test result shows inadequate liability reserve, the shortfall should be recognized as a liability adequacy reserve.

m. Classification of insurance products

An insurance contract refers to a contract where the insurer accepts the insurance policyholder's transfer of significant insurance risk and agrees to compensate the policyholder for any damages caused by a particular uncertain future event (insured event). The Group's identification of a significant insurance risk refers to any insured event that occurs and causes the Group to incur additional significant payments.

For a policy that meets the definition of an insurance contract in the initial phase, it is treated as an insurance contract before the right of ownership and obligations expired or extinguished, even if the exposure to insurance risk during the policy period has significantly decreased. However, if an insurance contract with features of financial instruments transfers a significant insurance risk to the Group subsequently, the Group should reclassify the contract as an insurance contract.

n. Revenue and acquisition costs of insurance business

Direct premiums are recognized for all insurance policies underwritten and issued in current periods. Reinsurance premiums are usually recognized as the billing statements are delivered, and, on the balance sheet date, reinsurance premiums of which the billing statements are not yet received are accrued in a reasonable and systematic manner. Related acquisition costs are recognized in the same periods, including commission expenses, agency fees, service fees and reinsurance commission expenses.

Taxes related to the insurance premium revenue are recognized pursuant to "Value-added and Non-value-added Business Tax Act" and "Stamp Tax Act" on an accrual basis.

o. Insurance claims and payments

Claims and payments (including claim expenses) filed and paid pertaining to the direct insurance business are recognized as paid claims in current periods. For claims filed but not yet paid with determined amounts and those without determined amounts are recognized as net changes in loss reserve based on relevant information of each case by insurance type.

For direct insurance and ceding reinsurance, claims not yet filed are estimated based on past experience according to actuarial principles and recognized as net changes in loss reserve.

For claims to be recovered from the reinsurer under the reinsurance contract, claims and payments (including claim expenses) recoverable from reinsurers are recognized as claims recovered from reinsurers. For those of filed but not yet paid and not yet filed cases, claims and payments (including claim expenses) are recognized as net changes in loss reserve.

Provision for loss reserve is undiscounted.

p. Liability adequacy test

At the end of each reporting period, each type of insurance is subjected to the test by the expected cost method to assess the adequacy of insurance liabilities. The expected cost method requires the Group to estimate future cash flows of insurance contracts in accordance with the requirements for actuaries that was issued by the Actuarial Institute of the Republic of China. If an assessment shows that the carrying amount of insurance liabilities (less related intangible assets) is not enough to cover the estimated future cash flows, the entire shortfall is recognized in profit or loss.

Liability adequacy test is calculated on the undiscounted basis.

q. Salvage and subrogation

Salvage legally acquired from the claim procedure for direct written business should be recognized at its fair value. Subrogation legally acquired should be recognized when the actual recovery is definite (the inflow of the economic benefits in the future is more likely than not) and reliably measured.

r. Co-insurance organization, co-insurance and guarantee fund agreement

The Company and all the members approved by the competent authority set the "Co-insurance Contract of Compulsory Automobile Liability Insurance" and agreed that the business should be fully included in the co-insurance, violators have to pay liquidated damages and agreed to be inspected by co-insurance team. The business is calculated on the basis of pure premiums and in accordance with the agreed portion. In addition to the liquidation or going out of business, the members shall not withdraw. If the members stop to operate the compulsory automobile liability insurance, it should drop out from the co-insurance organization at the same time, and the responsibility of unearned premiums applies natural expiry.

The Company, the property insurance company with the order for traveling industry performance guarantee insurance and the reinsurance company set the "Co-insurance Contract of Traveling Industry Performance Guarantee Insurance" and agreed that the business should be fully included in the co-insurance, violators have to pay liquidated damages and agreed to be inspected by the co-insurance organization. The business is calculated on the basis of the co-insurance premium and in accordance with the agreed proportion. Members shall make notice in writing when going to withdraw from co-insurance three months before the start of the following year began three months ago. The original undertaken responsibility will cease to exist at the end of the year and the member company which drops out from the co-insurance organization will be held responsible for the unfinished part of the responsibility until its natural expiry.

s. Leases

At the inception of a contract, the Group assesses whether the contract is, or contains, a lease.

The Group as lessee

The Group recognizes right-of-use assets and lease liabilities for all leases at the commencement date of a lease, except for short-term leases and low-value asset leases accounted for applying a recognition exemption where lease payments are recognized as expenses on a straight-line basis over the lease terms.

Right-of-use assets are initially measured at cost, which comprises the initial measurement of lease liabilities adjusted for lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs needed to restore the underlying assets, and less any lease incentives received. Right-of-use assets are subsequently measured at cost less accumulated depreciation and impairment losses and adjusted for any remeasurement of the lease liabilities. Right-of-use assets are presented on a separate line in the consolidated balance sheets.

Right-of-use assets are depreciated using the straight-line method from the commencement dates to the earlier of the end of the useful lives of the right-of-use assets or the end of the lease terms.

Lease liabilities are initially measured at the present value of the lease payments. The lease payments are discounted using the interest rate implicit in a lease, if that rate can be readily determined. If that rate cannot be readily determined, the lessee's incremental borrowing rate will be used.

Subsequently, lease liabilities are measured at amortized cost using the effective interest method, with interest expense recognized over the lease terms. When there is a change in a lease term, the Group remeasures the lease liabilities with a corresponding adjustment to the right-of-use assets. However, if the carrying amount of the right-of-use assets is reduced to zero, any remaining amount of the remeasurement is recognized in profit or loss. Lease liabilities are presented on a separate line in the consolidated balance sheets.

t. Employee benefits

1) Short-term employee benefits

Liabilities recognized in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related services.

2) Retirement benefits

Payments to defined contribution retirement benefit plans are recognized as expenses when employees have rendered services entitling them to the contributions.

Defined benefit costs (including service cost, net interest and remeasurement) under defined benefit retirement benefit plans are determined using the projected unit credit method. Service cost (including current service cost and past service cost) and net interest on the net defined benefit liabilities are recognized as employee benefits expense in the period in which they occur. Remeasurement, comprising actuarial gains and losses and the return on plan assets (excluding interest), is recognized in other comprehensive income in the period in which it occurs. Remeasurement recognized in other comprehensive income is reflected immediately in other equity and will not be reclassified to profit or loss.

Net defined benefit liabilities represent the actual deficit in the Group's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any refunds from the plans or reductions in future contributions to the plans.

Pension cost for an interim period is calculated on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant plan amendments, settlements, or other significant one-off events.

3) Termination benefits

A liability for a termination benefit is recognized at the earlier of when the Group can no longer withdraw the offer of the termination benefit and when the Group recognizes any related restructuring costs.

u. Share-based payment arrangements

Employee share options granted to employees and others providing similar services.

The fair value at the grant date of the employee share options is expensed on a straight-line basis over the vesting period, based on the Group's best estimates of the number of shares or options that are expected to ultimately vest, with a corresponding increase in capital surplus - employee share options. It is recognized as an expense in full at the grant date if vested immediately. The grant date of the parent company's issued ordinary shares for cash which are reserved for employees is the date on which the board of directors approves the transaction.

v. Income tax expense

Income tax expense represents the sum of the tax currently payable and deferred tax. Interim period income taxes are assessed on an annual basis and calculated by applying to an interim period's pre-tax income the tax rate that would be applicable to expected total annual earnings.

1) Current tax

Income tax payable (recoverable) is based on taxable profit (loss) for the year determined according to the applicable tax laws of each tax jurisdiction.

According to the Income Tax Act in the R.O.C, an additional tax of unappropriated earnings is provided for in the year the shareholders approve to retain earnings.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

2) Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

Deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries and associates and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are recognized only to the extent that it is

probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and such temporary differences are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered. A previously unrecognized deferred tax asset is also reviewed at the end of each reporting period and recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liabilities are settled or the assets are realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

3) Current and deferred tax for the year

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income, in which case the current and deferred tax are also recognized in other comprehensive income.

5. MATERIAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's material accounting policies, management is required to make judgments, estimates and assumptions on the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered relevant. Actual results may differ from these estimates.

When developing material accounting estimates, the Group considers the possible impact of catastrophe on the cash flow projection and other relevant material estimates. The estimates and underlying assumptions are reviewed on an ongoing basis.

Material Accounting Judgments

Adequacy test on loss reserve

Loss reserves are estimated for possible claims of both filed but not yet paid and not yet filed insurance contracts. Such estimates are made based on historical data, actuarial analysis, financing modeling and other analytical techniques and are adjusted when necessary; however, the actual results may differ from these estimates.

6. CASH AND CASH EQUIVALENTS

	September 30, 2024	, , , , , , , , , , , , , , , , , , ,	
Cash on hand Checking accounts and demand deposits Cash equivalents (investments with original maturities of less than 3 months)	\$ 42,655	\$ 33,903	\$ 38,793
	2,111,892	2,754,197	3,205,881
Time deposits Short-term notes	4,864,401	4,070,191	3,837,156
	2,935,890	2,524,672	2,427,099
	\$ 9,954,838	\$ 9,382,963	\$ 9,508,929

7. FINANCIAL INSTRUMENTS AT FVTPL

	Sep	otember 30, 2024	De	cember 31, 2023	Sep	otember 30, 2023
Financial assets mandatorily classified as at FVTPL Derivative financial assets (not under hedge accounting)						
Currency swaps contract	\$	15,968	\$	59,225	\$	-
Non-derivative financial assets						
Listed shares		7,682,125		6,313,540		5,691,837
Beneficiary certificates		5,851,519		4,167,315		3,382,678
Financial bonds		255,116		258,268		262,304
	<u>\$</u>	13,804,728	\$	10,798,348	<u>\$</u>	9,336,819
Financial liabilities held for trading Derivative financial liabilities (not under hedge accounting)						
Currency swaps contract	\$	110,721	\$	63,746	\$	295,986

a. At the end of the reporting period, outstanding foreign exchange swaps contract not under hedge accounting were as follows:

	Currency	Maturity Date	Notional Amount (In Thousands)
<u>September 30, 2024</u>			
Currency swaps contract	USD/NTD	2024.10.31-2025.05.22	USD 255,600
<u>December 31, 2023</u>			
Currency swaps contract	USD/NTD	2024.01.16-2024.12.23	USD 173,600
<u>September 30, 2023</u>			
Currency swaps contract	USD/NTD	2023.10.27-2024.09.18	USD 176,100

The Group entered into currency swaps contract to manage exposures to exchange rate fluctuations of foreign currency-denominated assets and liabilities.

- b. The financial assets at FVTPL were not pledged.
- c. The Group elects to present the profit or loss of the designated financial assets in the overlay approach under IFRS 4. Financial assets designated to apply overlay approach by the Group for investing activities relating to insurance contracts issued by the Group are as follows:

	September 30, 2024	December 31, 2023	September 30, 2023
Financial assets at FVTPL			
Listed shares	\$ 7,682,125	\$ 6,313,540	\$ 5,691,837
Beneficiary certificates	5,851,519	4,167,315	3,382,678
Financial bonds	255,116	258,268	262,304

Reclassification from profit or loss to other comprehensive income of the financial assets designated to apply overlay approach for the three months ended September 30, 2024 and 2023 and for the nine months ended September 30, 2024 and 2023 is as follows:

	For the Three Months Ended September 30				For the Nine Months Ended September 30		
		2024		2023	2024	2023	
Gain due to application of IFRS 9 to profit or loss	\$	(2,611)	\$	(111,260)	\$ (1,322,385)	\$ (1,006,375)	
Gain if applying IAS 39 to profit or loss		219,152		105,995	796,028	352,372	
Gain (loss) from reclassification using the overlay approach	<u>\$</u>	216,541	<u>\$</u>	(5,265)	\$ (526,35 <u>7</u>)	<u>\$ (654,003)</u>	

Due to application of overlay approach, the amount of gain and loss on financial assets and liabilities at FVTPL increased from gain of \$88,824 thousand to gain of \$305,365 thousand and increased from loss of \$139,566 thousand to loss of \$144,831 thousand for the three months ended September 30, 2024 and 2023, respectively, and gain and loss on financial assets and liabilities at FVTPL decreased from gain of \$995,624 thousand to gain of \$469,267 thousand and decreased from gain of \$586,538 thousand to loss of \$67,465 thousand for the nine months ended September 30, 2024 and 2023, respectively.

8. FINANCIAL ASSETS AT FVTOCI

	September 30, 2024	December 31, 2023	September 30, 2023
Investments in debt instruments at FVTOCI Domestic investments			
Government bonds	<u>\$ 662,364</u>	<u>\$ 678,881</u>	<u>\$ 680,716</u>

- a. Refer to Note 26 for information relating to the credit risk management and impairment of investments in debt instruments at FVTOCI.
- b. The financial assets at FVTOCI were not pledged as collateral.

9. FINANCIAL ASSETS AT AMORTIZED COST

	September 30, 2024	December 31, 2023	September 30, 2023
Domestic investments			
Financial bonds	\$ 200,000	\$ 100,000	\$ 100,000
Corporate bonds	1,599,983	1,599,988	1,599,983
Government bonds	949,886	949,742	949,697
Foreign bonds investments	7,813,160	7,129,842	7,379,248
-	10,563,029	9,779,572	10,028,928
Less: Loss allowance	(14,441)	(14,182)	(14,915)
Less: Deposits in the Central Bank	(299,710)	(299,602)	(299,564)
	\$ 10,248,878	<u>\$ 9,465,788</u>	\$ 9,714,449

- a. The Group's gains on disposal of bonds resulting from repayments at maturities for the three months and nine months ended September 30, 2024 and 2023 were 54 thousand, \$58 thousand, \$178 thousand and \$186 thousand, respectively.
- b. Refer to Note 26 for information relating to their credit risk management and impairment.
- c. The financial assets at amortized cost were not pledged.

10. LOANS

	September 30,	December 31,	September 30,
	2024	2023	2023
Secured loans	\$ 105,056	\$ 124,832	\$ 127,996
Less: Loss allowance	(1,483)	(1,755)	(1,799)
	<u>\$ 103,573</u>	<u>\$ 123,077</u>	<u>\$ 126,197</u>

Secured loans are secured by property and equipment. The Group applied IFRS 9 and assessed impairment in accordance with the regulation of "Guidelines for Handling Assessment of Assets, Loans Overdue, Receivable on Demand and Bad Debts by Insurance Enterprises". Refer to Note 26 for information relating to the credit risk management and impairment for the nine months ended September 30, 2024 and 2023.

11. RECEIVABLES

	September 30, 2024	December 31, 2023	September 30, 2023
Notes receivable	\$ 178,707	\$ 181,332	\$ 186,674
Premiums receivables	3,126,769	2,734,422	2,939,482
Other receivables	452,680	297,720	356,640
	3,758,156	3,213,474	3,482,796
Less: Loss allowance	(46,547)	(40,438)	(45,154)
	\$ 3,711,609	\$ 3,173,036	\$ 3,437,642

The allowance for impairment loss was reconciled as follows:

12.

		For the Nine Months Ended September 30	
		2024	2023
Beginning balance Impairment losses recognized (reversed)		\$ 40,438 6,109	\$ 70,139 (24,985)
Ending balance		<u>\$ 46,547</u>	<u>\$ 45,154</u>
. REINSURANCE ASSETS

21. RETIREMENT BENEFIT PLANS

Health insurance

The pension expense of defined benefit plans was calculated based on the actuarially determined pension cost rate on December 31, 2023 and 2022, and recognized as follows:

		Months Ended nber 30	For the Nine Months Ended September 30		
	2024	2023	2024	2023	
General and administrative expenses	<u>\$ 6,342</u>	<u>\$ 7,092</u>	<u>\$ 19,027</u>	<u>\$ 21,845</u>	

22. EQUITY

a. Share capital

	September 30, 2024	December 31, 2023	September 30, 2023
Shares authorized (in thousands of shares)	200,000	200,000	200,000
Shares authorized	<u>\$ 2,000,000</u>	\$ 2,000,000	<u>\$ 2,000,000</u>
Shares issued and fully paid (in thousands of			
shares)	200,000	200,000	200,000
Shares issued	\$ 2,000,000	\$ 2,000,000	<u>\$ 2,000,000</u>

On April 27, 2023, the Company's board of directors, which acted on behalf of the shareholders, resolved to offset deficits by using the legal reserve of \$3,995,920 thousand and capital surplus of \$8,696,184 thousand, as well as by decreasing its capital by \$5,057,052 thousand, which eliminated 505,705 thousand shares at a par value of \$10; the capital reduction percentage was 71.66%. After completing the capital reduction, the Company's paid-in capital was \$2,000,000 thousand. The capital decrease was approved by the Insurance Bureau of the FSC on May 10, 2023, with the record date of June 19, 2023, and the change of registration was completed on July 24, 2023.

b. Capital surplus

	September 30, 2024	December 31, 2023	September 30, 2023
May be used to offset a deficit, distributed as cash dividends, or transferred to share capital (1)			
Issuance of ordinary shares	\$ 7,806,316	\$ 7,806,316	\$ 7,806,316
May only be used to offset a deficit			
Recognition of employee share options by the parent company (2)	54,817	54,817	54,817
	\$ 7,861,133	\$ 7,861,133	\$ 7,861,133

- 1) The capital surplus from shares issued in excess of par (share premium from the issuance of ordinary shares) may be used to offset a deficit. In addition, when the Company has no deficit, such capital surplus may be distributed as cash dividends or transferred to share capital. However, under Rule No. 10202501991 issued by the FSC, the Company can distribute its capital surplus pursuant to Article 241 of the Company Act only if the Company's legal reserve exceeds its paid-in capital, other conditions requested under the Rule are met, and the related information is delivered and approved by the authority.
- 2) The Group's parent company, Cathay Financial Holdings Co., Ltd., resolved to issue ordinary shares on October 20, 2022, and retained 10% of the shares issued for the employee of Cathay Financial Holdings Co., Ltd. and its subsidiaries in accordance with the Company Act. The Company has recognized \$46 thousand as salary expense and capital surplus in 2023, at the fair value on grant day.

c. Retained earnings and dividends policy

Under the dividends policy as set forth in the Articles, where the Company made a profit in a fiscal year, the profit shall be first utilized for paying taxes, offsetting losses of previous years, setting aside as a legal reserve 20% of the remaining profit, setting aside or reversing a special reserve in accordance with the laws and regulations, and then any remaining profit together with any undistributed retained earnings shall be used by the Company's board of directors as the basis for proposing a distribution plan, which should be resolved in the shareholders' meeting for the distribution of dividends and bonuses to shareholders. In formulating its dividend policy, the Company considers both its operating needs and the shareholders' interests. Thus, dividends are distributed after the Company reserves the cash requirement for future capital expenditures. For the policies on the distribution of employees' compensation and remuneration to directors and supervisors, refer to Note 23.

An appropriation of earnings to a legal reserve shall be made until the legal reserve equals the Company's paid-in capital. Legal reserves may be used to offset deficits. If the Company has no deficit and the legal reserve has exceeded 25% of the Company's paid-in capital, the excess may be transferred to capital or distributed in cash. However, under Rule No. 10202501991 issued by the FSC, the Company can distribute its capital surplus pursuant to Article 241 of the Company Act only if the Company's legal reserve exceeds its paid-in capital, other conditions requested under the Rule are met and the related information is delivered and approved by the authority.

Under Rule No. 11004920441, Rule No. 10904939031 and Rule No. 10804932431 issued by the FSC and the directive titled "Questions and Answers for Special Reserves Appropriated Following Adoption of IFRS Accounting Standards", the Company should appropriate or reverse to a special reserve.

The appropriations of earnings for 2023, which were resolved by the board of directors, which acted on behalf of the shareholders, on April 30, 2024, were as follows:

	r the Year Ended cember 31, 2023
Legal reserve	\$ 249,102
Special reserve (according to the Regulations Governing the Setting Aside of	
Various Reserves by Insurance Enterprises)	694,129
Special reserve (FinTech development)	(631)
Special reserve (according to Rule No. 10904939031)	13,057
Cash dividends	289,854
Cash dividends per share	1.45

The offsetting of deficits for 2022, which were resolved by the board of directors, which acted on behalf of the shareholders, on April 27, 2023, was as follows:

	For the Year Ended December 31, 2022
Special reserve (according to the Regulations Governing the Setting Aside of Various Reserves by Insurance Enterprises) Special reserve (FinTech development) Special reserve (according to Rule No. 10904939031)	\$ (1,277,640) (472) 7,104

c. Compensation of employees and remuneration of directors and supervisors

According to the Company's Articles, the Company accrued compensation of employees and remuneration of directors and supervisors at rates of no less than 0.1% and no higher than 1.5%, respectively, of net profit before income tax, compensation of employees and remuneration of directors and supervisors. The estimated compensation of employees and remuneration of directors and supervisors for the nine months ended September 30, 2024 and 2023 are as follows:

Accrual rate

	For the Nine M Septem	
	2024	2023
Compensation of employees	0.10%	0.10%
Remuneration of directors and supervisors	0.11%	0.29%

Amount

		Months Ended aber 30	For the Nine Months Ended September 30				
	2024	2023	2024	2023			
Compensation of employees	<u>\$ 1,089</u>	<u>\$ 880</u>	\$ 2,608	<u>\$ 1,125</u>			
Remuneration of directors and supervisors	<u>\$ 2,925</u>	<u>\$ 3,375</u>	<u>\$ 2,925</u>	\$ 3,375			

If there is a change in the amounts after the annual consolidated financial statements are authorized for issue, the differences are recorded as a change in the accounting estimate.

The Company did not accrue the compensation of employees and remuneration of directors and supervisors because of the loss incurred for the year ended December 31, 2022.

The compensation of employees and remuneration of directors and supervisors for 2023 that were approved by the board of directors on March 4, 2024 are as follows:

Amount

	For the Year Ended December 31, 2023 Cash
Compensation of employees Remuneration of directors and supervisors	\$ 1,523 \$ 3,900

There is no difference between the actual amounts of compensation of employees and the remuneration of directors and supervisors paid and the amounts recognized in the consolidated financial statements for the year ended December 31, 2023.

Information on the compensation of employees and remuneration of directors and supervisors resolved by the Company's board of directors is available at the Market Observation Post System website of the Taiwan Stock Exchange.

Held for trading	110,721	63,746	295,986
Amortized cost (2)	4,534,746	4,102,639	4,688,240

- 1) The balances include financial assets at amortized cost, which comprise cash and cash equivalents, receivables, financial assets at amortized cost, loan and refundable deposits.
- 2) The balances include financial liabilities at amortized cost, which comprise payables.

d. Financial risk management objectives and policies

The Group's major financial instruments include equity and debt investments, derivatives, receivables and payables. The major risks include market risk (including foreign currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

1) Market risk

Market risk is the risk that changes in market risk factors, such as exchange rate, product price, interest rate, credit spread, and stock price, may decrease the Group's income or value of investment portfolio.

The Group continues to use market risk management tools such as value at risk ("VaR") and stress testing to completely and effectively measure, monitor and manage market risk.

a) Value at Risk

VaR is used to measure the maximum potential loss of a portfolio in a given period and confidence level when the market risk factors change. The Group calculates VaR on the next day (week or two weeks) at a 99% confidence level.

b) Stress testing

In addition to the VaR model, the Group periodically uses stress testing to assess the potential risk of extreme and abnormal events.

The Group conducts stress testing regularly on positions by simple sensitivity analysis tests and scenario analysis. Such tests cover the losses on positions resulting from changes of various risk factors in various historical scenarios.

i. Simple sensitivity test

Simple sensitivity test measures the changes in value of the investment portfolio caused by specific risk factors.

ii. Scenario analysis

Scenario analysis measures the changes in the total value of the investment portfolio under a stress event, including the following scenarios:

i) Historical scenario

By considering the fluctuations in risk factors during a specific historical event, the Group evaluates that losses would be incurred for the current investment portfolio in the event.

ii) Hypothetical scenario

The Group simulates rational expectations for possible extreme market changes to evaluate the losses incurred for the investment positions by considering the fluctuations in related risk factors and the relevance between the investment targets and the risk factors.

The risk management department performs stress testing with historical and hypothetical scenarios regularly. The Group's risk analysis, early warning, and business management are in accordance with the stress testing report.

Table of Stress Testing										
Risk Factors	Changes (+/-)	September 30, 2024	December 31, 2023	September 30, 2023						
Equity price risk (index)	-10%	\$ (1,325,192)	\$ (1,034,864)	\$ (855,394)						
Interest rate risk (yield curve)	+20bps	(176,449)	(160,607)	(154,583)						
Foreign currency risk (exchange rate)	USD exchange NTD devalue 1 dollar	(142,613)	(133,847)	(122,222)						

Note 1: Change in credit spread is not considered.

Note 2: The effect of hedging is considered.

Note 3: Information of subsidiaries is not disclosed due to immaterial effects on disclosures for consolidation of subsidiaries.

i) Foreign currency risk

The Group has foreign currency-denominated assets and liabilities, which expose the Group to foreign currency risk.

The carrying amounts of the Group's foreign currency-denominated monetary assets and monetary liabilities and of the derivatives exposed to foreign currency risk at the end of the reporting period are set out in Note 31.

ii) Price risk

The Group was exposed to equity price risk through its investments in listed shares and beneficiary certificates.

iii) Sensitivity analysis

	For the Nine Months Ended September 30, 2024								
Risk Factors	Variation (+/-)		et on Profit nd Loss	Effect on Equity

	Yield curve (CNY): Upward parallel shift by 1bp		(24)		-			
	Yield curve (NTD): Upward parallel shift by 1bp		(2,296)		(828)			
Equity securities price sensitivity	Increases 1% in equity price		-		85,539			

- Note 1: Change in credit spread is not considered.
- Note 2: The effect of hedging is considered.
- Note 3: Impacts of changes in profit or loss are not included in those of changes in equity.
- Note 4: Information of subsidiaries is not disclosed due to immaterial effects on disclosures for consolidation of subsidiaries.

2) Credit risk

- a) The Group's credit risk exposure of financial transactions includes issuer credit risk, counterparty credit risk and credit risk of underlying assets.
 - Issuer credit risk is the risk that the Group may suffer financial losses on debt instruments or bank savings because the issuers (guarantors), borrowers or banks are not able to perform repayment obligations in accordance with agreed conditions due to default, bankruptcy or liquidation.
 - ii. Counterparty credit risk is the risk that the Group may suffer financial losses because the counterparty does not perform its obligation to settle or pay at the appointed date.
 - iii. Credit risk of underlying assets is the risk that the Group may suffer losses due to deterioration of the credit quality, increase in credit spread, downgrade or breach of any contract terms of underlying assets linked to financial instruments.

b) Credit concentration risk analysis

The amounts of credit risk exposure of the Group's financial assets are as follows:

- c) Determinants for whether the credit risk has increased significantly since initial recognition
 - i. The Group assesses at each reporting date, whether the credit risk of a financial instrument in the scope of impairment requirements under IFRS 9 has increased significantly since initial recognition. To make this assessment, the Group considers reasonable and supportable information (including forward-looking information) which indicates that credit risk has increased significantly since initial recognition. Main indicators include external credit rating, past due information, credit spread and other market information which shows that the credit risk related to borrowers and issuers has increased significantly.
 - ii. If the credit risk at the reporting date is determined to be low, an entity can assume that the credit risk of the financial instrument has not increased significantly since initial recognition.
- d) Definitions of a default occurring on a financial asset and a credit-impaired financial asset

The definition of a default occurring on financial assets of the Group is the same as a credit-impaired financial asset. If one or more of the criteria below are met, a default occurs, and a financial asset is credit impaired:

- i. Quantitative factor: When contractual payments are more than 90 days past due, a default occurs, and a financial asset is credit impaired.
- ii. Qualitative factor: Evidence indicates that the issuers or borrowers cannot pay the contractual payments or that they have significant financial difficulties, for example:
 - i) The issuers and borrowers have entered bankruptcy or are probable to enter bankruptcy or financial reorganization.
 - ii) The borrowers fail to make interest or principal payments based on original terms and conditions.
 - iii) The collaterals of the borrowers are seized provisionally or enforced.
 - iv) The borrowers claim for a change of credit conditions due to financial difficulties.
- iii. The above-mentioned definitions of a default occurring on a financial asset and a credit impairment are applicable to all financial assets held by the Group and are aligned with those of relevant financial assets for internal credit risk management. The definitions are also applicable to related impairment assessment models.

e) Measurement of expected credit losses

i. Methods and assumptions adopted

For financial instruments on which the credit risk has not increased significantly since initial recognition, the Group measures the loss allowance for financial instruments at an amount equal to 12-month expected credit losses; for financial instruments on which the credit risk has increased significantly since initial recognition or are credit impaired, the Group measures the loss allowance for financial instruments at an amount equal to the lifetime expected credit losses.

To measure expected credit losses, the Group multiplies exposure at default by the 12-month and the lifetime probability of default of the issuers, guarantee agencies and borrowers and loss given default. The Group also considers the effect of the time value of money when calculating the 12-month and lifetime expected credit losses.

The default rate is the rate at which a default occurs on issuers, guarantee agencies and borrowers, while the loss given default is the loss rate that resulted from the default of issuers, guarantee agencies and borrowers. The loss given default used by the Group in impairment assessment is based on information regularly issued by Moody's, while the probability of default is based on information regularly issued by Taiwan Ratings and Moody's and is determined based upon current observable information and macroeconomic information (for example, gross domestic product and economic growth rate) with adjustments of historical data. The exposure at default is measured at amortized cost and interest receivables of the financial assets.

ii. Consideration of forward-looking information

The Group takes forward-looking information into consideration when measuring expected credit losses of the financial assets.

f) Gross carrying amount of maximum credit risk exposure and category of credit quality

i. Financial assets of the Group

September 30, 2023	\$	136	\$		\$		\$		\$	136	\$	1,663	\$	1,799

There were no significant changes in loss allowance due to significant changes in the gross carrying amounts of the financial instruments.

h) Exposure to credit risk and loss allowance of receivables

Measurement of loss allowance of the Group's notes receivable and premiums receivables which are in the scope of the impairment requirements under IFRS 9 are based upon the lifetime expected credit losses under the simplified approach. Loss allowance measured by a provision matrix under simplified approach is as follows:

September 30, 2024	Not Overdue	Overdue	Total		
Carrying amount Expected loss rate	\$ 2,258,031 1.02%	\$ 1,047,445 2.02%	\$ 3,305,476		
Lifetime expected credit losses	\$ 23,093	\$ 21,165	\$ 44,258		
December 31, 2023	Not Overdue	Overdue	Total		
Carrying amount	\$ 2,071,170	\$ 844,584	\$ 2,915,754		
Expected loss rate Lifetime expected credit losses	1.01% \$ 20,955	2.12% \$ 17,919	\$ 38,874		
September 30, 2023	Not Overdue	Overdue	Total		
Carrying amount	\$ 2,052,543	\$ 1,073,613	\$ 3,126,156		
Expected loss rate	1.04%	2.02%			
Lifetime expected credit losses	\$ 21,390	\$ 21,740	\$ 43,130		

3) Liquidity risk

a) Sources of liquidity risk

Liquidity risks of the financial instruments are classified as funding liquidity risk and market liquidity risk. Funding liquidity risk represents the risk that the Group is unable to turn assets into cash or obtain sufficient funds to meet matured obligations. Market liquidity risk represents the risk of significant changes in fair value when dealing with or offsetting positions held due to insufficient market depth or disorder.

b) Liquidity risk management

The Group established a completed capital liquidity management mechanism by assessing the business features, monitoring short-term cash flow, and considering the trading volume and holding position to carefully manage the market liquidity risk.

According to the actual management need or special situations, the Group uses a cash flow model and stress testing to assess cash flow risk. Moreover, the Group has drawn up a plan for capital requirements with respect to abnormal and emergency conditions to deal with significant liquidity risk.

The analysis of cash outflows to the Group is listed below and based on the residual terms to maturity on the balance sheet date. The disclosed amounts are prepared in accordance with contract cash flows, and, accordingly, for certain line items, the disclosed amounts are different from the amounts on consolidated balance sheets.

The maturity dates for other non-derivative financial liabilities were based on the agreed repayment dates.

The remuneration of directors and key executives was based on the performance of individuals and market trends.

28. THE ALLOCATION OF REVENUE AND EXPENSES ARISING FROM BUSINESS TRANSACTIONS, PROMOTION ACTIVITIES AND INFORMATION SHARING BETWEEN PARENT COMPANY AND OTHER SUBSIDIARIES

To elaborate on the benefits of economic scale, Cathay Financial Holdings and its subsidiaries cooperate to launch promotion activities, and the related expenses are allocated to each subsidiary directly by the nature of business or on other reasonable basis.

29. ASSETS PLEDGED AS COLLATERAL OR FOR SECURITY

a. The Company

Item of Assets	September 30,	December 31,	September 30,
	2024	2023	2023
Guarantee deposits - government bonds	\$ 299,710	\$ 299,602	\$ 299,564
Guarantee deposits - time deposits	20,059	20,059	20,030
	\$ 319,769	<u>\$ 319,661</u>	\$ 319,594

The pledged assets are stated at book value. As of September 30, 2024, December 31, 2023 and September 30, 2023, the Company provided government bonds amounting to \$299,726 thousand, \$299,615 thousand and \$299,577 thousand to the Central Bank for insurance business in accordance with the Insurance Act, respectively. Loss allowance amounted to \$16 thousand, \$13 thousand and \$13 thousand, respectively, which are in the scope of the impairment requirements under IFRS 9.

b. Cathay Insurance Co., Ltd. (Vietnam)

Item of Assets	September 30,	December 31,	September 30,
	2024	2023	2023
Guarantee deposits - time deposits	<u>\$ 7,882</u>	\$ 7,760	\$ 8,090

The pledged assets are stated at book value. As of September 30, 2024, December 31, 2023 and September 30, 2023, according to the Insurance Act of Vietnam, Cathay Insurance Co., Ltd. (Vietnam) provides guarantee deposits at an amount equal to 2% of its paid-in capital. The guaranteed deposits of Cathay Insurance Co., Ltd. (Vietnam) are time deposits.

30. OTHER ITEMS

a. Capital management

1) Management objectives

In order to ensure capital structure and stimulate business growth, the Company manages its capital adequacy in accordance with Regulations Governing Capital Adequacy of Insurance Companies and management policies established by the Company and maintains adequate capital to effectively absorb different types of risk.

2) Management policies

In order for sufficient capital to assume all types of risks, the Company applies the RBC ratio as the management indicator for capital adequacy. The Company calculates the RBC ratio periodically and periodically to monitor the status of short- and mid-term capital adequacy and the calculation would serve as a reference for business objectives, asset allocation and dividend policy.

3) Management procedures

a) Periodical calculation

The Company provides an RBC report every half year by the authority and analyzes the possible changes of owned capital and risk-based capital when making the next-year financial forecast of business and investment development plan at the end of every year, which ensures the soundness of capital structure and implements capital adequacy management.

b) Aperiodic calculation

The Company conducts RBC ratio analysis for specific events and assesses their impacts, such as usage of funding, business development, reinsurance arrangements, or changes of the financial market and regulations.

4) Current status of RBC ratio

The Company's RBC ratio, which is calculated in accordance with the Regulations Governing Capital Adequacy of Insurance Companies, is above 200%, and the net worth ratio is more than 3% for the previous two years, which complied with the regulations.

For the three months ended September 30, 2024 and 2023 and the nine months ended September 30, 2024 and 2023 (realized and unrealized) net foreign exchange (losses) gains were \$(185,235) thousand, \$244,845 thousand, \$198,065 thousand and \$337,947 thousand, respectively. It is impractical to disclose net foreign exchange gains or losses by each significant foreign currency due to the variety of the foreign currency transactions.

32. SEPARATELY DISCLOSED ITEMS

- a. Information on significant transactions and investees:
 - 1) Acquisition of individual real estate at costs of at least NT\$100 million or 20% of the paid-in capital: None
 - 2) Disposal of individual real estate at prices of at least NT\$100 million or 20% of the paid-in capital: None
 - 3) Total purchases from or sales to related parties amounting to at least NT\$100 million or 20% of the paid-in capital: (Table 3)

- 4) Receivables from related parties amounting to at least NT\$100 million or 20% of the paid-in capital: None
- 5) Trading in derivative instruments (Note 7)
- 6) Intercompany relationships and significant intercompany transactions (Table 4)
- 7) Information on investees (Table 5)

b. Information on investments in mainland China

- 1) Information on any investee company in mainland China, showing the name, principal business activities, paid-in capital, method of investment, inward and outward remittance of funds, ownership percentage, net income of investees, investment income or loss, carrying amount of the investment at the end of the period, repatriations of investment income, and limit on the amount of investment in the mainland China area (Table 6).
- 2) Any of the following significant transactions with investee companies in mainland China, either directly or indirectly through a third party, and their prices, payment terms, and unrealized gains or losses: None
 - a) For transactions involving each other's main business, such as underwriting an insurance policy where the proposer is the investee, the amount and percentage of transactions and the balance and percentage of the related payables at the end of the period.
 - b) The amount of property transactions and the amount of the resultant gains or losses.
 - c) The highest balance, the ending balance, the interest rate range, and total current period interest with respect to the financing of funds.
 - d) Other transactions that have a material effect on the profit or loss for the period or on the financial position, such as the rendering or receipt of services.
 - e) The amount or balance of transactions mentioned in subitems a d above that reaches 10% or more of the insurance enterprise's total amount or balance of such transactions shall be separately presented, while the rest may be added up and reported as an aggregate amount.
- c. Information of major shareholders: The insurance enterprise whose stock is listed on the TWSE or listed on the TPEx shall disclose the names, numbers of shares held, and shareholding percentages of shareholders who hold 5 percent or more of the insurance enterprise's equity. For this purpose, the insurance enterprise may request the centralized securities depository enterprise to provide relevant information: None

33. SEGMENT INFORMATION

The Group operates property insurance in accordance with the Insurance Act. In accordance with IFRS 8, the Group only provides insurance contract products, and it has no different channel, client type or supervision environment. The chief operating decision maker of the Group also allocates resources on an overall basis and therefore considers the Group as a single operating segment.

The overdue amounts as of September 30, 2024, December 31, 2023 and September 30, 2023 in the above amounts due from (to) reinsurers and ceding companies were \$1,239,613 thousand, \$1,185,311 thousand and \$1,180,717 thousand, respectively, and loss allowances of \$180,488 thousand, \$174,157 thousand and \$59,036 thousand were provided, respectively.

Due from and due to the reinsurers and ceding companies cannot be offset, except for those meeting the requirements in Article 42 of IAS 32.

e. Reserve required for specific assets

The accounting of the compulsory automobile liability insurance ("CAL Insurance") held by the Company is based on the Regulations for the Accounting Treatment and the Financial Information Reported of Compulsory Automobile Liability Insurance, which was legislated according to the Compulsory Automobile Liability Insurance Act.

Under Article 5 of the Regulations for the Management of the Various Reserves for Compulsory Automobile Liability Insurance, for the special reserve set aside for CAL Insurance, the insurer should purchase treasury bills or deposit the reserve with a financial institution as a time deposit. Provided that with the approval of the competent authority, the insurer may purchase the following domestic securities:

- 1) Government bonds, not including exchangeable government bonds.
- 2) Financial bonds, negotiable certificates of deposit, banker's acceptances, and commercial paper guaranteed by a financial institution, provided that financial bonds shall be limited to ordinary financial bonds only.

The amount of treasury bills purchased or time deposits placed in a financial institution under the preceding paragraph shall not be less than 30% of the total amount of the Group's retained earned pure premiums for CAL Insurance in the most recent period, as audited or reviewed by a certified public accountant. The competent authority may raise that percentage to a level they deem appropriate based on the Group's operating status.

If the balance of the Group's special reserve becomes less than the 30% of its most recent retained earned pure premiums, as audited or reviewed by an independent certified public accountant, the full amount of the special reserve should be invested in treasury bills or placed in a financial institution.

Under Article 6 of the Regulations for the Management of the Various Reserves for Compulsory Automobile Liability Insurance, funds, except for the special reserve mentioned above, held by an insurer for CAL Insurance (various reserve, payables and temporary receivable) should be deposited in a financial institution as special reserve in the form of demand deposits and time deposits.

- 1) Treasury bills.
- 2) Negotiable certificates of deposit, banker's acceptances, and commercial paper guaranteed by a financial institution.
- 3) Government bonds under repurchase agreements.

The term "funds" in the preceding paragraph refers to all types of reserves, payables, temporary credits and amounts to be carried forward.

The amount of demand deposits placed in financial institutions, which are mentioned in the preceding paragraph, should not be less than (a) 45% of the remaining balance of the funds after subtracting the special reserves from the funds held by the Group due to the operation of CAL Insurance, or less than (b) 30% of the retained earned pure premiums for the most recent period as audited or reviewed by an independent certified public accountant. The relevant authorities may raise the percentage of demand deposits required for the Group to a level they deem appropriate on the basis of the Group's operating status.

If the total amount of unearned premium reserve and loss reserve of the Group for the CAL Insurance is less than 30% of the retained earned pure premiums of this insurance for the most recent period as audited or reviewed by an independent certified public accountant, the funds held by the Group through its provision of this insurance should be deposited in full in a financial institution in the form of demand deposits.

Under Article 11 of the Regulations for the Management of the Various Reserves for Compulsory Automobile Liability Insurance, the various reserves for this insurance should be transferred to the various reserves set aside for handling this insurance by the other insurer or other property and casualty insurance company if the Group suspends its business operations or ceases to provide this type of insurance.

The various reserves for this insurance should be transferred to the Motor Vehicle Accident Compensation Fund if (a) the Group has been duly ordered to suspend its business and undergo rehabilitation or ordered to dissolve, or (b) its permission to operate this insurance business has been revoked, and no other insurance company can sustain this insurance business.

h. Organization chart and responsibilities of risk management

1) Organization chart of risk management

2) Responsibility of each department:

Board of directors

- a) The board of directors should be aware of the risks arising from operations, ensure the effectiveness of risk management and bear the ultimate responsibility for overall risk management.
- b) The board of directors should establish an appropriate risk management system and culture, ratify the appropriate risk management policy and allocate resources in the most effective manner.

c) The board of directors should consider the effect of the aggregated risks from the Company's overall perspective; the board of directors should also follow the legal capital requirement and the relevant financial or business operating regulations that affect capital allocation.

Risk management department

a) Risk management committee

- i. The committee should propose the risk management policies, framework, and organization functions and establish quantitative and qualitative management standards. The committee is also responsible for reporting the results of implementing risk management to the board of directors regularly and making necessary suggestions for improvement.
- ii. The committee should execute the risk management policies set by the board of directors and review development, build-up and performance of the overall management mechanisms regularly.
- iii. The committee should assist and monitor the risk management activities performed by each department.
- iv. The committee should assist in deliberating related procedures for formulating risk limits.
- v. The committee should arrange the risk category, risk limit allocation and risk-taking method according to changes in the environment.
- vi. The committee should enhance cross-department interaction and communication.

b) Chief risk officer

The appointment of chief risk officers of the Group should be approved by the board of directors, who should maintain independence and should not concurrently play a business or financial role nor have the right to access any information which may affect the Company's risk overview.

- i. The chief risk officer should be in charge of the overall risk management.
- ii. The chief risk officer should participate in the important decision-making process and provide appropriate suggestions from a risk management perspective.
- iii. The chief risk officer should be a member of the risk management committee.

c) Risk management department

- i. The Group established a risk management department, which is responsible for monitoring, measuring and evaluating major risks. The department is independent from the business units.
- ii. Responsibilities of the risk management department are as follows:
 - i) Propose and execute the risk management policies set by the board of directors.
 - ii) Propose the risk limits based on risk appetite.

- iii) Summarize the risk information provided by each department, negotiate and communicate with each department to facilitate the execution of the policies and the risk limits.
- iv) Regularly present risk management reports.
- v) Regularly review the risk limits and their use by each business unit.
- vi) Assist to execute stress testing and back testing if necessary.
- vii) Other risk management-related issues.

Business units

- a) The risk management duties of the manager of a business unit are as follows:
 - i. Manage and report the daily risk of the business unit and take necessary responsive actions.
 - ii. Supervise regular submission of risk management information to the risk management department.
- b) The risk management duties of a business unit are as follows:
 - i. Identify and measure risks and promptly report the status of risk exposures and impacts.
 - ii. Risks and limits are reviewed regularly, and if they are exceeded, a report of the exceedance should be made, including the measures to be taken against the exceedance.
 - iii. Assist to develop the risk model and ensure that the risk measurement, application of model, and the parameter settings are reasonable and consistent.
 - iv. Ensure that internal control procedures are executed effectively to comply with applicable rules and the risk management policies.
 - v. Assist to collect data related to operational risk.

Audit department

The department is responsible for the audit of each department's performance of risk management pursuant to the applicable laws and regulations and related rules and guidance of the Company.

- i. Risk reporting and range and nature of risk assessment for the property insurance business
 - 1) Risks management reporting
 - a) Each business unit should regularly deliver risk information to the risk management department, and report the excess of risk limits and responding measures when the risk exposure exceeds the limit.

b) The risk management department summarizes the risk information provided by each department, tracks the uses of major risk limits, submits a monthly risk management report to the chairman, and submits quarterly reports to the risk management committee and the board of directors.

2) The scope and nature of risk assessment

The risk management departments of the Group and its parent company, Cathay Financial Holdings, collaborated in building the market risk management system. The system structure was developed in consideration of the system functionality, data source, completeness of data upload, and the safety of the environment of the system. The front-end of the investment department has acquired the information system related to the investment market. The risk management system focuses on risk quantification, which is needed by the middle-end department, and would only be accessible to authorized risk management personnel.

j. Processes to undertake, evaluate, supervise and control the insurance risk of the property insurance business and underwrite policies to ensure proper risk classification and premium level.

The risk management department of the Group is responsible for monitoring and integrating insurance risks as a whole, and setting up risk indicators, risk limits, and the managing mechanism. Each related department is the execution unit of insurance risk control and regularly reports execution to the risk management department in accordance with the laws and regulations, internal rules, and professional knowledge and experience related to its duties. The risk management department proposes the insurance risk management report to the risk management committee and the board of directors each quarter.

k. The scope of insurance risk assessment and management from a company-wide perspective

Insurance risk management of the Group covers product design and pricing, underwriting, reinsurance, catastrophe, claims, and reserves. Proper management mechanisms are set up and executed thoroughly.

1. Methods to limit insurance risk exposure and avoid inappropriate concentration risk:

When the Group undertakes a new business, the underwriter evaluates the quality of the business based on the underwriting criteria of each insurance to decide whether to undertake the business to properly hedge and control the risk exposure.

In addition, for the reinsurance business, the risk management mechanism is set up in accordance with the Regulations Governing Insurance Enterprises Engaging in Operating Reinsurance and Other Risk Spreading Mechanisms. The capabilities for undertaking risk are considered in developing the reinsurance risk management plan and the maximum of accumulated retained risks of each risk unit for execution.

Accumulated risk assessment of the portfolio of direct written premiums and other inward-insurance business is conducted before an individual case of outward/inward reinsurance is executed. When the cumulative insurance amount exceeds the contract limit or self-retained limit, risk is diversified through reinsurance.

According to the Group's reinsurance risk management policy, the basis for managing the maximum accumulated risk limit of each risk unit requires the risk management and each insurance department to jointly review and discuss the accumulated retained risk limit of a risk unit for each insurance type every year, which is submitted to the general manager for approval before implementation. The following table summarizes the maximum accumulated retained risk limit of a risk unit by insurance type:

	For the Year Ended Dece						
Insurance Type	2024	2023					
Fire insurance	\$ 1,200,000	\$ 1,200,000					
Marine insurance	1,200,000	1,200,000					
Engineering insurance	1,200,000	1,200,000					
Miscellaneous insurance/liability insurance	1,200,000	1,200,000					
Healthy and accident insurance	1,200,000	1,200,000					
Automobile insurance	50,000	50,000					
Liability insurance	250,000	250,000					

- m. Risk coordinated asset-liability management
 - 1) Asset-liability coordinated with risk identification and measurement

Financial accounting and actuarial departments should identify the possible market risk, liquidity risk and insurance risk that may occur during operation. The cash inflows from assets are measured by cash flow test method (or other method) to evaluate whether the amount of inflows is sufficient to cover the cash outflow for liabilities, that is, whether the asset allocation has reasonable liquidity to pay liabilities for expenditures in future years.

2) Asset-liability coordinated with risk response

When market risk, liquidity risk and insurance risk events occur, financial, accounting and actuarial service departments should take appropriate reactions to coordinated asset-liability risk, and report to the risk management department and propose to the risk management committee an evaluation of the risk.

n. Procedures to manage, monitor and control a special event for which the property insurance business is committed to assuming additional liabilities or raising additional capital.

The Group has established a set of capital adequacy management standards, including risk-based capital management indicators for regular review, under which risk-based capital is calculated each quarter and a risk-based capital management report is prepared every half year as implementation of risk-based capital management.

If the risk-based capital ratio exceeds the control criteria (risk limit) or other exceptions occur, the related departments should propose a reaction to the risk management committee and inform the parent company, Cathay Financial Holdings Co., Ltd., to review the impact on the capital adequacy ratio of Cathay Financial Holdings Co., Ltd. and its subsidiaries.

o. Sensitivity to insurance risk

	\$ 519,032		<u>\$ (25,952)</u>	<u>\$ (12,861)</u>						

Note: Expected loss rate is calculated based on the weighted average loss rate of the past five years.

The above table shows that with 5% increase in the expected loss rate of every insurance contract of Cathay Insurance Co., Ltd. (Vietnam), profit or loss may be impacted to an extent; however, the impact has been mitigated through the arrangement of reinsurance to achieve the effect of risk diversification.

p. Risk concentration

1) The Company

- a) Situations that may cause concentration of insurance risk
 - i. Single insurance contract or several related contracts

As of September 30, 2024, commercial insurance products with low frequency of occurrence and enormous possible losses have been reviewed and discussed in compliance with the insurance risk management guidelines by the underwriting department, reinsurance department and risk management department or in a project meeting.

ii. Exposure to unanticipated change in trend

As of September 30, 2024, there are no other unexpected changes in exposure.

iii. Material litigation or legal risks that may lead to huge losses incurred by a single contract or have an extensive effect on several contracts.

"The Regulations for Assisting in Filing Lawsuit Cases of Cathay Century Insurance" were set up to safeguard the rights of the Company and the insured and to implement process control of lawsuit cases of insurance claims. In addition, each unit has appointed staff for compliance matters to minimize possible legal risk. As of September 30, 2024, there are no material litigation or legal risks that may lead to huge losses incurred by a single contract or have an extensive effect on several contracts.

iv. Correlation and interaction among different risks

When a catastrophe occurs, the underwritten cases will incur huge claims, and other risks, such as market risk, credit risk, and liquidity risk, may be derived accordingly. To avoid the operations being severely endangered by these derived risks from a catastrophe, the Company established "points for handling teams of catastrophe and major events" and "Operation Standards under Crisis". Besides, the Company implemented a business continuity management mechanism, under which the crisis handling team is set up in response to the event and executes emergency actions after ensuring employee safety, such as resource coordination, fund procurement monitoring changes in the financial market, and adjusting investment positions to protect the rights of insureds, insure the Company's continuous operation, and ensure financial stability.

v. When a non-linear relationship as a certain key variable has approached to the extent that future cash flows may be materially influenced

Since the 3rd stage of liberalization of property insurance premium rates took effect, the Company has conducted regular reviews in accordance with the regulations. When the actual loss rate exceeds the expected loss rate to a certain percentage, premium rates will be properly adjusted to avoid increased losses. In addition, the actuarial department observes the changes in trend of loss rates of each product on a sporadic basis and adjusts pricing and coverage in a timely manner to effectively lower insurance risks.

For investment instruments, changes in risk indicators are monitored on a regular basis with cash flow analysis as well as stress testing to control and manage the impact of fluctuations in major risk factors.

In addition, stress testing is performed for the overall business every year to assess the impacts on financial positions due to extreme scenarios of the assets and insurance risk, and the major risk factors are identified and dealt with in a timely manner.

vi. Concentration of geographic regions and operating segments

The Company's catastrophe insurance for earthquakes, typhoons and floods is mainly in the areas of Taoyuan, Hsinchu, Taichung, Chiayi, Tainan, Kaohsiung, Pingtung, Hualian and Taitung.

b) Disclosure of concentration of insurance risk, including explanation of indicators used to identify the common features of insurance risk concentration and exposure to related insurance liabilities related to such feature

The following table summarizes Cathay Century's concentration of risk before and after for the three months ended September 30, 2024 and 2023 and for the nine months ended September 30, 2024 and 2023 reinsurance by insurance type:

	For	For the Three Months Ended September 30, 2024

c) Disclosure of the past performance of property insurance business regarding the management risks with low frequency of occurrence but enormous impact, to the user of financial statement assess the uncertainty of cash flows related to such risks

Catastrophes such as earthquake, typhoon, and flood along with related huge claims, result in tremendous impact to the property insurance business.

To control and manage risk with low frequency of occurrence but enormous impact, Cathay Century assesses the risk of natural disasters and special insured items (for example, high-tech factory, power plant, and traffic engineering), transfers these risks through reinsurance, control cumulative risks according to retention limits, and holds loss prevention seminars regularly to help clients lower the incidence rate of disasters.

- 2) Cathay Insurance Co., Ltd. (Vietnam)
 - a) Situations that may cause concentration of insurance risk:
 - i. Single insurance contract or several related contracts

As of September 30, 2024, commercial insurance products with low frequency of occurrence and enormous possible losses have been reviewed and discussed in compliance with the underwriting guidelines by the underwriting department, reinsurance department and risk management department or in project meetings.

ii. Exposure to unanticipated change in trend

As of September 30, 2024, the subsidiaries have not yet been exposed to risks arising from changes in unanticipated trends.

iii. Material litigation or legal risks that may lead to huge losses incurred by a single contract or have an extensive effect on several contracts

"The Procedure for Subrogation" and "The Proceedings of the Court" are set up to safeguard the rights of Cathay Insurance Co., Ltd. (Vietnam) and the insured and to implement process control of lawsuit cases of insurance claims. In addition, each unit has appointed staff for compliance matters to minimize possible legal risk. As of September 30, 2024, there are no material litigation or legal risks that may lead to huge losses incurred by a single contract or have an extensive effect on several contracts.

iv. Correlation and interaction among different risks

When a catastrophe occurs, the underwritten cases will incur huge claims, and other risks, such as market risk, credit risk, and liquidity risk, may be derived accordingly. To avoid the operations being severely endangered by these derived risks from a catastrophe, Cathay Insurance Co., Ltd. (Vietnam) established the Points for Handling Major Events of Cathay Insurance Co., Ltd. (Vietnam), under which an emergency team is set up in response to the event and executes emergency actions such as resource coordination and fund procurement to protect the rights of the insured and the Company and to maintain financial stability. As of September 30, 2024, there is no interaction among risks resulting from a catastrophe.

v. Concentration of geographic regions and operating segments

Cathay Insurance Co., Ltd. (Vietnam)'s catastrophe insurance for earthquakes and floods is mainly in the areas of Ho Chi Minh City, Tinh Dong Nai and Tinh Ha Tinh.

b) Disclosure of concentration of insurance risk, including explanation of indicators used to identify the common features of insurance risk concentration and exposure to related insurance liabilities related to such feature.

The following table summarizes Cathay Insurance's (Vietnam) concentration of risk before and after for the nine months ended September 30, 2024 and 2023 insurance types:

	For t	For the Three Months Ended September 30, 2024								
Insurance Type	Premium	Reinsurance	Reinsurance	Net Premium	%

Note 1: The upper part of the table illustrates claim payments estimated in underwriting years by property insurance businesses. The lower part of the table illustrates the reconciliation of the accumulated claims disbursed to the balance sheet.

Note 2: The above tables exclude direct loss reserve of compulsory insurance, policy-oriented residential earthquake insurance and inward loss reserve of \$1,698,506 thousand and \$1,415,143 thousand as of September 30, 2024, \$1,565,904 thousand and \$1,511,891 thousand as of December 31, 2023, \$1,614,331 thousand and \$1,540,729 thousand as of September 30, 2023.

2) Cathay Insurance Co., Ltd. (Vietnam)

Since the claim data of Cathay Insurance Co., Ltd. (Vietnam) is still immature, the historical experience for development trend of claim is not available. Cathay Insurance Co., Ltd. (Vietnam) provided loss reserve for claims incurred but not yet filed at 5% of retained premiums following the suggestion by Vietnamese Ministry of Finance 2842/BTC/QLBH.

r. Credit risk of insurance contract

The main source of credit risk in an insurance contract is the reinsurance business. The Group arranges its reinsurance business under the Regulations Governing Insurance Enterprises, and it is engaged in operating reinsurance and other risk-diversification mechanisms. Most of the insurance enterprises chose to have a certain level of credit rating and are qualified for reinsurance business. The Group regularly monitors the net changes in the credit rating of these enterprises. The Group discloses its transactions with unqualified ceded reinsurer as follows, based on Regulations for the Management of the Reserve for Unqualified Reinsurance.

1) The summary of unqualified reinsurance contracts and related insurance type are listed below:
